ASUCLA appoints new executive director

Patricia Eastman to lead the association out of its large debt

By Michael Angell
Summer Brain Contributor

She will be in charge of Bearwear, textbooks and food. She will determine where students can study on campus, where they can meet and at what hours. She will leave a nonprofit hospital with $500 million in revenues to a student association.

Her name is Patricia Eastman, and after an intensive six-month search, she has been named the new executive director for the Associated Students, UCLA.

After reading a list of candidates from an executive search service, a selection committee of students, alumni and administrators chose Eastman for her abilities to negotiate with various groups and her talents in business forecasting.

"Pat met all our criteria," said Jim Friedman, a graduate student representative on the ASUCLA Board of Directors and a member of the selection committee. "We feel we caught a rising star on her ascendancy, a future rising star in this industry.

"For the past nine years, Eastman has been in charge of Business Development at Cedars Sinai Medical Center in Los Angeles. Richard Jacobson, senior vice president for Systems Development, said Eastman is a very talented business executive.

"Pat's got an enormous talent, maturity, tact and discipline," he said. "The gain for ASUCLA is a huge one.

Stringent three strikes rule relaxed

Judges may grant felons chance for lenient sentences

By Bob Egelko
The Associated Press
SAN FRANCISCO — It's now "three strikes and you're out," unless the judge says otherwise.

The state Supreme Court ruled unanimously last Tuesday that the 1994 sentencing law, tailored as a mandatory life to death for certain third-time felons, actually was more flexible.

Authority is that the state's trial judges have held since 1996, unaffected by the U.S. Supreme Court's decision that the law violated the Constitution's 14th Amendment, does not apply to the 1994 law and that sentence can be suspended for a year.

"The law is unconstitutional," said the court. "The court now has discretion to suspend the sentence for up to one year.

"The sentence is not only mandatory, but it's not the same sentence as it's otherwise.

Ackerman scheduled to reopen in Fall

Closure of A, B levels produces fears among students of job losses

By John Dignard
Summer Brain Senior Staff

In the latest chapter of the ongoing saga of UCLA construction, students' association officials have closed two of Ackerman Union's most important floors for the summer months.

The closure, already planned for later this year, was made ahead of schedule to complete the renovation.

"The second and first floors of the union, A and B levels, and the departments that were once open on those floors have either been temporarily moved to other parts of campus or have closed permanently.

"The closure will affect the departments and their employees across campus, and in some cases, may eliminate jobs altogether," workers said.

Departments such as the computer store and Bearwear will be housed in the soon-to-be-occupied Tower temporary library. Others, such as school and art supplies, will be consolidated into existing departments on other parts of campus.

However, the move will not affect Ackerman and Ackerman will never have a student association's travel agency when the two floors reopen in the fall.

"We are committed to supporting the student employees and the student association's travel agency," said Sally Amato, assistant director of human resources for the association. "We hope to keep employees employed throughout the transition.

But the sudden closure of the A, B levels travel agency may have caught some student employees off guard, and students senior Travis Green, a former employee of the travel agency, said they had only two days before they closed that we didn't have a summer job.

"There was no announcement," said Green. "We had no idea that they were going to close the office. We were surprised when we heard that the association had not made the decision.

"No one told us anything at all," she said. "We heard rumors from other department, but we didn't know.

"Reaffirming the association's commitment to their employees, association offic-

Board of Regents names new chair

The UC Board of Regents named-retiree board member and former chancellor Max Fink as the new chair of the board.

June 18, 1996 - The Regents of the University of California have named Max Fink of San Diego to the new chairmanship of the University of California system. Fink succeeds Chancellor Jack Peltason, who retired in January after 25 years of service to the University.

Peltason's tenure as chancellor for the past three years has been marked by the University's financial crisis, the passage of Proposition 13, and the growth in the University's enrollment.

Regents hear of hospital merger

The Regents of the University of California may ask for an independent examination to review the proposal of mergers of hospitals run by UC San Francisco and Stanford University.

During a meeting last Thursday, the Regents discussed the announced merger of the two hospitals, which would establish an independent non-profit corporation to run the hospitals. The merger has resulted in a large-scale job loss for the employees of the two hospitals.

Man found dead in Kerckhoff Hall

A male student was discovered dead in his dorm room, Kerckhoff Hall, by a fellow student. The student, identified as John Smith, had been reported missing earlier in the week.

Emergency services were called to the scene, but the cause of death remains unknown.

Professor wins national honor

UCLA School of Music Professor John Smith has been awarded the prestigious Prize for Excellence in Research by the American Musicological Society.

Smith's research focuses on the music of the 18th century, and he has authored several books on the subject.

"I'm just in the organization just to be here and support the idea of having a big band."

Friedman believes that the new directorship in the area of jazz and music education is an opportunity to promote the idea of a big band in jazz. "It's a way of getting people interested in the idea of a big band," he said.

Friedman also hopes to see the band grow and evolve in the future. "I'd like to see the band become a living entity," he said. "I'd like to see it evolve and change over time."

Friedman's experience in the music industry includes holding a number of positions that are not directly related to big bands. He has worked as a music director for a number of television shows and has been involved in the recording industry. He has also taught at a number of music schools.

Friedman believes that the opportunity to lead a big band is a great opportunity for him to explore his musical interests. "I've always been interested in big bands," he said. "I've always thought that they were a great way to present music."
Remembering the kindness of Professor Majl Ewing

Alumnus reflects on first impressions that belied scholar's warm demeanor

Viewpoint

Lettres

Bravin ad renders brutal symbols

I couldn't help but be shaken when I read of the death of Professor Majl Ewing and the shock brought about by her abrupt passing. It's a shame that such a person as Professor Ewing should have been taken away so soon, leaving behind a void that can only be filled by her memory.

Her death was a loss not only to the University of California, but also to the world of academia and scholarship. Professor Ewing was a respected scholar in her field, and her contributions to knowledge will be remembered for years to come. She will be missed by all who knew her, and her legacy will continue to inspire those who come after her.

We must remember that even in the midst of our daily lives, there are people who give us a reason to pause and reflect. Professor Ewing was such a person, and her kindness and generosity will be remembered for a lifetime.

Let us honor her memory by continuing to work towards the goals she set out for us, and by being kind to one another. In this way, we can fulfill her legacy and make the world a better place.

Sincerely,

[Signature]

Fanning flames of discontent

Editor:

Your article on the death of Professor Majl Ewing, which appeared in the May 24 issue of the Viewpoint, was a touching tribute to a woman whose kindness and generosity touched the lives of many. As someone who had the privilege of working with her, I can attest to the fact that she was truly one of a kind.

Professor Ewing was a warm and approachable person, and her kindness was evident to everyone who knew her. She had a kind heart and a gentle spirit, and she was always willing to lend a helping hand to anyone who needed it.

I can only hope that her memory will live on in the hearts of those she touched, and that her legacy will inspire others to be kind and generous in their own way. She will be missed, but her spirit will live on.

Sincerely,

Off the Beaten Path

Instead of doling out fists of dough for large, stuffy museums, why not discover the free and fertile grounds of local galleries?

By Kristie Fierne
Daily Bruin Correspondent

There’s more to Santa Monica than Third Street Promenade. Two cultural Santa Monica spots — Fred Hoffman Fine Arts, Berggruen Fine Art Gallery — provide a new angle on the city’s art scene and are evidence that the area is not only for leisure, but also for culture. These two institutions show a variety of contemporary artists in new and established works, and you won’t likely see at the big-name museums. Furthermore, both galleries have art classes and community events meant to enhance the experience. Berggruen and Hoffman, however, are two unique entities, with two separate missions that attract different audience.

As the gallery focuses on a few significant artists that will make a difference in the art world, community survivors.

We put a lot of creating effort into our work. Indeed, such shows are accompanied by an all-star cast.

The gallery’s exit walls and gift shop are a green haven for the artistically inclined, Charles Arnoldi. Arnoldi is a prominent painter who has received enough attention to have his work featured in the Rolling Stone cover art for 1969 and the West Coast expose.

Arnoldi’s work encompasses everything from bizarre sculptures and paintings on canvas to acrylic resin and ships that look like sailboats. The idea is to combine the two.

Located near the Pacific Palisades, the Berggruen Fine Art Gallery, a great spot for those who want a more intimate experience, the Urban Gallery, is the gallery you want to go to if you want to see the latest in art. The Berggruen Fine Art Gallery, however, is more focused on the work of established artists.

Erasing the competition not likely for Schwarzenegger's new action film

Director Russell fails to provide creativity, flick's main weakness

By Michael Hornstein
Daily Bruin Columnist

Arnold Schwarzenegger is the world’s most recognizable action hero, but can the actor do anything other than act?

The looking good in action shots and preening before the cameras are nothing new for Schwarzenegger. He has been doing it for years, but can he get away with the formulaic shots that make up this film?

The result is a movie that is not only predictable, but also boring. The action scenes are not nearly as wild and crazy as they were in previous films. The special effects are also not up to par.

Despite the lack of creativity, Schwarzenegger does a good job of portraying the character of John McCall. He is a man on a mission to save the world, and he is willing to do whatever it takes to achieve his goal.

The film’s action scenes are not nearly as wild and crazy as they were in previous films. The special effects are also not up to par.

Popular writer fails to measure up in film debut

One-Eye Jimmy offers an underdeveloped plot, shallow characters

By Brandon Wilson

Edgy British suburban humor and smartly directed by the late Susan Seidelman, "One-Eye Jimmy" was once hailed as the perfect combination of style and wit. However, the film's lack of depth and hissing characters quickly plummet it into mediocrity. A look at the plot:

The narrative follows the life of, you guessed it, One-Eye Jimmy (played by the ever-reliable Bill Murray). Jimmy's life is a whirlwind of partying, drinking, and sleeping with a variety of women. Despite his numerous affairs, Jimmy is unable to find true love.

The film's humor lies in Murray's dry delivery and the film's satirical take on British society. Unfortunately, the film's pacing is slow and the dialogue is often contrived. Seidelman's direction is uneven, with the film's best moments occurring in the beginning and its weakest moments towards the end.

Despite the film's flaws, "One-Eye Jimmy" remains a watchable film for Murray fans and those who appreciate British humor. However, it's hard to recommend the film to those looking for a deeper, more thought-provoking story.

UCLA restores endangered films

By Dennis Anderson

The Associated Press

UCLA has restored and digitized dozens of endangered films, including "The Search for One-Eye Jimmy," a lost comedy from the early 1920s. The film was rediscovered in a basement in the United Kingdom and has been restored by UCLA's Film and Media Preservation Lab.

The film, directed by the legendary Charles R. L. T. Armand, stars Murray as the titular One-Eye Jimmy, a womanizing playboy who struggles to find true love. The film was originally released in 1923 and is considered a lost film.

UCLA's restoration efforts are part of a larger initiative to preserve and digitize endangered films. The University of California, Los Angeles, has digitized over 1,000 films, including many from the early 1900s.

The restoration of "One-Eye Jimmy" is just the latest in UCLA's efforts to preserve and digitize endangered films. The university's Film and Media Preservation Lab has been working for years to save films that are at risk of being lost forever.

The restoration of "One-Eye Jimmy" is a testament to the importance of preserving our cinematic heritage. We must preserve these films to ensure that future generations can experience and appreciate the art and history of film.

Summer league nets thin crowd

Many of Bruin basketball's meagars revel in the relaxed atmosphere of off-season play.

By Mark Bittner

Summer Bruin Senior Staff

It was somewhat surprising to see a basketball court dominate the student body. Knowing the importance of the season, D.K. Bittner understands. It's my guess that anyone who has spent a year at J.S. Memorial Basketball League's annual Student League tournament feels the same way.

The two-year-old program, which began the fall semester, has received strong support from the athletic department. The men's basketball team has provided a financial incentive for student participation.

The university has also provided a place to play, and the student body has responded. Bittner said that the program is a great way to bring people together.

The league now has two divisions: a men's and a women's.

Summer league standings

Final Standings for 1995-96 Summer League

1. Stanford 961.5
2. UCLA 836.0
3. USC 731.5
4. Texas 678.0
5. Michigan 659.5
6. North Carolina 629.0
7. Arizona 629.0

Victim alleges chemistry professor abused him as an academic advisor

By Karen Suyama

Summer Bruin Senior Staff

At 2 p.m. on July 1,坐落ed sexual harassment allegations at UCLA, with an assistant professor of chemistry being accused of sexual harassment.

The victim, who held his second year of graduate school, alleged that the professor had sexually harassed him while he was a student.

The professor, who is currently on administrative leave, said he is working with the university to resolve the matter.

The university, which has not released a statement, said it is investigating the matter.

UCLA also said it is working with the state attorney general's office to ensure that all campuses are following the same policies.

Garlic scentations lingers on next weekend

Festival offers complete sensory experience for fans of this fragrant herb

By Marie Bouchard

Summer Bruin Senior Staff

Between the garlic cream, the garlic fries, and the garlic bread, it's hard to ignore the garlic at this weekend's Garlic Festival.

The festival, which runs from July 9 to July 11, offers a variety of garlic products and is expected to attract more than 50,000 visitors.

There will be garlic-themed food, garlic-themed activities, and garlic-themed music.

Since garlic is a symbol of health and longevity, it's no surprise that the festival is held in Santa Barbara, where garlic is grown.

This year, the festival will feature a garlic cooking contest, a garlic wine tasting, and a garlic-themed art exhibit.

The festival is free to the public and is open daily from 10 a.m. to 10 p.m.

Garlic is a free event and is open to the public.

Because garlic is a symbol of health and longevity, the festival is a great opportunity to try new garlic dishes.

Julie 4 rally turns into bloody riot

Groups protest over immigration rights at Federal Building

By Michael Smith

Summer Bruin Contributor

At about 9:30 a.m., Federal Building police called the Los Angeles police department to report that a large group of people had gathered outside the building.

The group was protesting against a proposed immigration law. The police had cleared the area and the protesters had been ordered to leave.

However, the protesters refused to leave and a scuffle broke out.

There were reports of injuries and the police had to use pepper spray to disperse the crowd.

The protesters were demanding that the government enact a plan to allow people to stay in the United States.

LAPD later responded to the scene with 27 squad cars in riot gear.

Officers from the Los Angeles police department, the LAPD and the LAPD riot control unit, were also on the scene.

Despite the large crowd, the police were able to keep the peace and the protesters were eventually dispersed.

Champions are not made in a day. They are made by hard work and dedication. This is what the Bruin Track and Field team is all about.
Yeltsin wins Russian presidential election

MOSCOW — President Boris Yeltsin won a huge majority in Russia’s presidential election yesterday. With 97 percent of the ballots cast, Yeltsin has a mandate to continue the country’s economic reform.”

Heavy flooding in China injures millions

BEIJING, China — At least 13 people were killed and 2 million people were displaced across southern China, officials said. The death toll from torrential rains and flooding also rose to 6,000 people across the country. The government estimates that at least 13 people were killed and 2 million people were displaced.

Delta jet aborts takeoff, killing two

A Delta Air Lines jet engine exploded and fell from the sky on Friday, killing two people on the ground. Delta Flight 1021 had just taken off from Atlanta and was climbing to 35,000 feet. The pilot immediately declared an emergency. The crash site is 30 miles south of Atlanta.

Severe storms barrel through African summit

CAPE TOWN — The African Union summit was dominated by the issue of drought and the impact it has had on the continent. The African Union leaders are meeting to discuss ways to reduce reliance on food imports and increase food production.

Libertarian Party

WASHINGTON — Former House Speaker Newt Gingrich, former Massachusetts Gov. Mitt Romney, and former Pennsylvania Sen. Rick Santorum all officially announced their candidacy for the Libertarian Party nomination. The Libertarian Party is a political party that focuses on individual liberty and limited government.

Punishment in Klaas trial near decision

SAN JOSE, Calif. — The prosecution in the trial of Scott Peterson, who is accused of murdering his wife and daughter, is seeking the death penalty. The prosecution’s case is expected to wrap up by the end of the week.

Dole and Clinton battle to clinch California’s vote in November elections

WASHINGTON — In the final days of the presidential campaign, Senator Al Gore is challenging President Bill Clinton for the vote in California. The race is close, with Clinton leading by a narrow margin in the polls.

In the last 16 years, the Republican Party has become president without the support of California. The Democratic Party has been the primary beneficiary of the Republican Party’s decline. The new president has been the beneficiary of the Republican Party’s decline.

Dole, accompanied by his wife, Elizabeth, signed copies of his book “The American” at Border’s Books yesterday afternoon.

Summer Brain

Summer Brain

But to achieve his goal, Dole is not targeting a particular audience. "I am running as a centrist," he said. "I am running for the center, and I am going to win the presidency without California."

However, supporters of Clinton argue that Dole lacks sufficient support to win California and that his campaign strategy is focused on winning the electoral college. "His strategy is focused on winning the electoral college," said former Governor Bob Dole. "He is trying very hard to make it a '98 race, and he is trying to make it a '98 race."

Elections

The most important issues are affirmative action and educational funding, according to many. (See page 3 for more.)

The Republican candidate for state treasurer, University of Alabama law professor and former U.S. Senate candidate, announced today that he would call for a special session of the legislature to consider a tax increase during the next fiscal year. The legislation, which was introduced by Senate Majority Leader Steve Roesler, would raise state taxes by $1 billion over the next fiscal year, according to the office of Minority Leader Bill Carney.

"If we don't increase taxes during the next fiscal year, we'll be faced with an even bigger financial crisis," said Roesler. "The state needs these funds to keep up with the demands of an ever-increasing population."

The bill, which would raise the state income tax from 3.75 percent to 4.25 percent and the sales tax from 4 percent to 4.5 percent, is expected to be debated on the Senate floor this week.

In other news, the Alabama House of Representatives approved a bill that would allow banks to charge higher interest rates on credit cards. The legislation, sponsored by Rep. John Cooper (R-DeKalb), would allow banks to charge up to 24 percent interest on credit card balances. The current maximum rate is 18 percent.

A similar bill passed the Senate last week and is expected to be signed into law by Gov. Robert Bentley.

Mr. Iridescence 1996

Ages 18 to 40
Don't Miss The Hottest Pageant Around!!

August, 1996

The excitement builds! You're invited to indulge in the Mr. Iridescence Pageant 96. We have something for everyone to enjoy. What better way to celebrate your birthday or special occasions than with a pageant with the best men of America? We've got it all. Make sure to come and see this memorable event. Find out more and buy your tickets today at the Mr. Iridescence Foundation. For tickets or more information, call (310) 385-3387.

Summer CPR/ SFA Workshops

Adult CPR: July 9, Tuesday
Infant and Child CPR: August 13, Tuesday
Standard First Aid: July 15, Monday

(requires Adult CPR certification)

- Classes start promptly at 6:00 pm and end at 10:00 pm.
- Sign up for classes in the Student Welfare Commission in Kerkhoff 404A. Mon. and Wed. 12:30 - 2:00, Thurs. 6:00 - 7:00. Please call Pat (patrik@ucla.edu) or George (george@ucla.edu) for more information.
- Be sure to bring student ID and registration form. A $5 deposit is required for reserving a seat in a class.

Groups of ten or more may arrange for private instruction by calling 825-7596. Classes subject to cancellation if less than 4 students attend.

RIOT

From page 1

Programmer Larry Page, with about 250 cassette tapes, has been convicted of membership in a group that calls itself "The Revenge of the Nerds." The group was found guilty of attacking a police station and damaging property.

The trial, which lasted for three days, began on Monday. The defendant, a University of California, Los Angeles student, was charged with one count of vandalism and one count of assault.

Page had been arrested last year after he allegedly broke into a police station and damaged police property. He was released after posting bail and was ordered to appear in court on Monday.

But Page's lawyer, Robert K. Pennington, said his client was innocent and that the case against him was "a sham." He said his client had been "framed" by the police and that the evidence against him was "weak and flimsy." He added that his client was "a model student" and that he had never been in trouble before.

The trial continues today.

GARLIC

From page 1

The vegetable is a popular ingredient in many Asian dishes. It is also used as a garnish and seasoning. Garlic is known for its strong flavor and pungent odor.

The garlic harvest is typically harvested in late summer and early fall. The bulbs are dug up and dried in the sun before being stored in the root cellar. The garlic cloves are then used fresh or dried for future use.

Garlic has long been believed to have many health benefits. It is known to lower blood pressure, reduce cholesterol levels, and fight infections.

However, garlic is also known to cause some adverse effects. It can cause digestive upset, such as heartburn, gas, and bloating. It can also interact with certain medications, such as blood-thinning drugs.

But overall, garlic is considered a safe and healthy food. It is a good source of vitamins and minerals, including vitamin C, vitamin E, and selenium.

Garlic is also known to have many culinary uses. It is used in many dishes, including soups, stews, and sautéed vegetables. It is also used as a garnish and seasoning for many other dishes.

Garlic is a versatile and flavorful ingredient that is enjoyed by many people around the world. It is a popular food and has been used for centuries for its health benefits and culinary uses.

They're blaming a lot of the county's problems on immigration, said demonstrator Alyson Kang, a married Asian American student. "The real culprits are the neglected corporations. They're making money out of our suffering and we're the ones who are paying."

Haywood decried that any of the groups which protested against illegal immigration were racist.

but the recent number of African-American churches burned in the South exceeds usual expectations.

Professor Jonathan Katz, a constitutional law professor at the UCLA School of Law, explained that a bill would need to be introduced in both houses of Congress for it to be passed, and would require approval of two-thirds of both houses. Katz said that he did not expect this to happen in the near future.

Mr. Nettles said he was the president of the Los Angeles County Chapter of the American Civil Liberties Union and expected the bill would pass.

In order to publicize the issue, the Association for the Advancement of Colored People (NAACP) has begun a fund to help rebuild the churches and reported a percentage that went into the church's coffers.

A bill would need to be introduced in both houses of Congress for it to be passed, and would require approval of two-thirds of both houses. Katz said that he did not expect this to happen in the near future.

Under the new law, any person born in the United States is a citizen of the United States, regardless of their parents' citizenship status.
Practical advice to rise above electoral politics

Active participation is the best medicine for election-related malaise

By Mark Garcia

As the election year heats up, we're surrounded by political advertising, talk radio, political commentary, and passionate debate. It's a heady mix of politics, ethics, and philosophy. But how do we rise above it all and engage in constructive dialogue?

I think that there should be some serious thought about how we can use the power of the互联网络 to engage in constructive dialogue. One way to do this is to use the power of the互联网络 to bring people together. Another way to do this is to use the power of the互联网络 to bring people apart. The互联网络 can be a powerful tool for both.

I think that we should take a serious look at how we can use the power of the互联网络 to bring people together. One way to do this is to use the power of the互联网络 to bring people together. Another way to do this is to use the power of the互联网络 to bring people apart. The互联网络 can be a powerful tool for both.

Billboards' pitches ballet with a rock 'n roll twist

The Joffrey hopes to lure a new crowd, mixing music of Prince, classical dance

By Anne Chen
Summer Brain Contributor

July 8-14, 1990

July is Prince's birthday, and that's when the Joffrey Ballet includes the 42-year-old musician's music in its repertory, including excerpts from his album, "Purple Rain." The Joffrey seeks to attract a new audience with Prince's edgy, pop-inflected dance works. "Billboards" is a four-minute ballet set to the music of 1990's number-one hit "1999.

"It's a combination of Prince's voice and the beats of the song," says John Neumeier, the Joffrey's artistic director. "The music is very rhythmic, and the dance is very emotional."

The piece, which features a quartet of male dancers, was created by Neumeier in 1990 and has been restaged with Prince's music for this season. The Joffrey's production will be the first to use Prince's original recording, rather than a re-recorded version.

The ballet features several moments that are emblematic of Prince's style, including a solo by a male dancer who spins around himself, and a section where three dancers move in unison, their bodies aligned in a straight line.

"Prince's music is very dynamic and exciting," Neumeier says. "It's perfect for dance, and it's a great way to introduce the Joffrey to a new generation of fans."
Shakespeare Festival's 'Othello' dons new look

Settings, dressing updated, but Bard's text, verve preserved

By Michelle Nguyen
Summer Bruin Contributor

The focus of love, fate, war and murder may be renewed for a new audience with a new setting, a fresh take on the timeless tale of "Othello," Shakespeare's tragic play on race and jealousy.

The directors of "Othello" at the Shakespeare Festival at the Veterans' Administration hospita in Los Angeles, have chosen to update the play's setting from the Moorish setting of the original 16th-century play to a contemporary setting. The directors, however, have not made any changes to the play's text, and the verve of Shakespeare's writing remains intact.

In its drive to provide a modern interpretation of "Othello" for a modern audience, the Shakespeare Festival has chosen to set the play in the contemporary world of the veterans' hospital. The setting is designed to reflect the diverse backgrounds and experiences of the characters, while also highlighting the universal themes of love, jealousy, and the struggle for power.

"Othello" is a play that explores the complexities of race, love, and jealousy, and the directors of the Shakespeare Festival have chosen to update the play's setting to make the themes more relevant to today's audiences. The play's themes of love, jealousy, and the struggle for power remain as relevant today as they were when Shakespeare first wrote the play.

In the hands of the skilled actors and directors of the Shakespeare Festival, "Othello" remains a timeless masterpiece, with its themes of love, jealousy, and the struggle for power resonating with audiences of all ages. The play is a testament to Shakespeare's enduring power and relevance, and the directors of the Shakespeare Festival have chosen to update the play's setting to make the themes more relevant to today's audiences.
it's okay about light and darkness."
The presentation of the play is made to Iago by the use of the shadows on his face, which give a sense of unease and tension to the audience. The audience may also notice the way in which the play is presented, which might include music, costumes, and lighting, to enhance the atmosphere of the scene.

"Shakespeare more than any other playwright to the audience is the ultimate illusionist. The audience is continuously being deceived and misled by different forms of stagecraft."

"There are many different ways in which Shakespeare might have deceived the audience."

"The audience was often deceived by the use of puns and irony."

"Shakespeare often used puns and irony to make the audience think that they were seeing something different than what was actually happening.

"Shakespeare made use of puns and irony to create a sense of mystery and intrigue."

"The audience might have been deceived by the use of puns and irony, as they were often left wondering what was really happening.

"The use of puns and irony in Shakespeare's plays can be seen in the following examples:

1. "I am more bound to you than I am to my father, for you are not to me what I am to you."

2. "I am more bound to you than I am to my father, for you are not to me what I am to you."

Shakespeare's use of puns and irony can be seen in the following examples:

1. "I am more bound to you than I am to my father, for you are not to me what I am to you."

2. "I am more bound to you than I am to my father, for you are not to me what I am to you."

3. "I am more bound to you than I am to my father, for you are not to me what I am to you."

4. "I am more bound to you than I am to my father, for you are not to me what I am to you."

5. "I am more bound to you than I am to my father, for you are not to me what I am to you."

6. "I am more bound to you than I am to my father, for you are not to me what I am to you."

7. "I am more bound to you than I am to my father, for you are not to me what I am to you."

8. "I am more bound to you than I am to my father, for you are not to me what I am to you."

9. "I am more bound to you than I am to my father, for you are not to me what I am to you."

10. "I am more bound to you than I am to my father, for you are not to me what I am to you."

11. "I am more bound to you than I am to my father, for you are not to me what I am to you."

12. "I am more bound to you than I am to my father, for you are not to me what I am to you."

13. "I am more bound to you than I am to my father, for you are not to me what I am to you."

14. "I am more bound to you than I am to my father, for you are not to me what I am to you."

15. "I am more bound to you than I am to my father, for you are not to me what I am to you."

Glaus, Parque make Olympic baseball team

Third baseman, left-handed pitcher posted big numbers this year

By Brian Wen
Summer Brain Sport

Two men had the same dream — to become Olympians. The only way they could make this dream a reality was by getting good enough to play for their respective national teams.

UCLA's Troy Glaus and San Francisco Giants shortstop Jeff Parque, both international players, are the result of a dream to be cast in baseball's brightest spotlight.

Before the dream could become a reality, Parque, who trains in beautiful Sonoma County but misses the hustle and bustle of California's Bay Area, had to overcome a different challenge.

At the age of 16, Parque's family moved to San Francisco, and he had to adjust to his new surroundings.

The move impacted Parque's baseball career, as he had to learn a new language and adapt to a new culture.

But Parque didn't let these obstacles get in the way of his dream.

He worked hard to improve his skills and became one of the top players in the country.

His hard work paid off when he was drafted by the San Francisco Giants in 2001.

Divac hopes to confront Dream Team in gold-medal round

Before joining Hornets, ex-Laker will play for Yugoslavia at Olympic Games

By Brett Boyd
Summer Brain Staff

Over the last few weeks, Vlade Divac has been the center of attention. It was announced that he would be leaving the Los Angeles Lakers to play for the Yugoslav national team in the Olympic Games.

The move was a surprise to many, as Divac had been with the Lakers for 12 years.

Divac, who was a part of the championship team in 2002, has decided to leave the Lakers and join the Yugoslav national team.

The decision was a tough one for Divac, as he had been with the Lakers for so long.

But Divac knew that he wanted to play for his country, and he decided to make the move.

The Olympians

Select Team Bella

Summer Brain Contributor

When asked if he had made the right decision, Divac responded:

"This is what I've been waiting for. I'm looking forward to playing for my country and representing Yugoslavia at the Olympics."

Joni Mitchell: A Legend in Her Time

Joni Mitchell is one of the most important and influential artists of the last few decades. Her distinctive voice and songwriting style have resonated with generations of listeners, and her music has been a source of inspiration for countless musicians. In this issue of Summer Entertainment, we take a look back at Mitchell's career and explore her impact on the music world.

SUMMER SITES

Student Psychological Services (SPS) provides confidential individual and group counseling through two campus locations. It is staffed by psychologists, clinical social workers and psychiatrists who are familiar with the needs and interests of university students. We are open Monday through Friday from 8 a.m. to 5 p.m. Services are confidential. There is a one time $100 summer fee to currently registered UCLA students. For information or an intake appointment for any of the Summer Groups, please stop by our offices or call the location number.

SUMMER GROUPS

DISSERTATION AND THESIS SUPPORT GROUP For Graduate Students
Come to one of these groups if you are a graduate student who would like a safe and supportive place to discuss issues and difficulties regarding the Thesis and Dissertation writing process. Call for an intake appointment. (213) 825-9000.

STRESS CLINIC GROUPS

The Stress Clinic offers three sessions each focusing on different coping strategies and skills for reducing excessive stress and increasing performance effectiveness. The Stress Clinic Group offers an opportunity to explore the impact of stress in your life and to learn new ways of coping with stress. The sessions are conducted by professionals in the field of psychology. Call for an intake appointment. (213) 825-9000.

HIV SUPPORT GROUP For HIV Positive Students

Come and explore the many complicated feelings that accompany an HIV diagnosis. Participation in this group will be strictly confidential. Call for an intake appointment. (213) 825-9000.

RELAXATION TRAINING AND BIO-FEEDBACK

This group is designed to help participants learn ways to relax during stressful situations. A variety of tools, including biofeedback, imagery, relaxation and positive self-talk will be introduced.

Local summer festivals offer everything under the sun

By Michelle Nguyen
Summer Event Director

Crashing waves, foamy surf, golden sand and sparkling blue skies may bring to mind the fun in the sun, but for those of us living on the East and West coasts, the summer festival is a sure way to make the most of the season.

during the month of August, visitors can explore the beauty of Laguna Beach, the home of the Laguna Beach Art and Craft Festival. The festival features over 1,000 artists in various booths throughout the city, showcasing their unique creations. Visitors can enjoy live music, art demonstrations, and a variety of food vendors.

The festival runs from July 27 to August 1, and admission is free to the public.

Music lovers can't miss the Sawdust Festival in Laguna Beach, which runs from July 27 to August 7. As one of the largest and most popular outdoor art and music festivals in the country, Sawdust offers visitors a diverse range of music, art, and entertainment options.

The Sawdust Festival features over 300 artists showcasing their work in a variety of mediums, including painting, sculpture, and photography. Live music performances take place throughout the festival, and there are also numerous food vendors to satisfy your hunger.

A must-see event is the Garfield Festival, held in the heart of downtown Los Angeles from July 27 to August 1.

The festival features over 200 artists displaying their work, ranging from fine art to jewelry, pottery, and photography. Live music performances and food vendors add to the festival's appeal. Visitors can explore the vibrant art scene of downtown Los Angeles, all while enjoying the fun and excitement of the Garfield Festival.

The festival runs from July 27 to August 7, and admission is free to the public.

UCLA’s Conflict Mediation Program
Now Recruiting!
Join CMP and become a mediator/facilitator!

What is CMP?
The Conflict Mediation Program is a corps of student, staff, and faculty mediators who offer free conflict resolution services to the UCLA community. CMP members complete academic courses and a series of trainings in conflict resolution for multicultural settings.

Who can apply?
CMP is open to all UCLA students, staff, and faculty. Full-time UCLA students are eligible to receive a stipend.

How do I apply?
Applications are available in the CMP office, 756 Hilmer Hall, or by calling 825-9564. All applications must be received by November 1, 1996.

**CAMPUS LIFE**

**Orientation Issue 1996**

**Safety in Numbers**

By Matthew Scrabis

Daily Bruin Contributor

Surrounded by quiet, tree-lined residential streets and the clean, well-maintained Westwood Village, UCLA appears to be a safe haven from the dangers of city life. However, just like any other densely populated area, it has its share of criminal activity, and students who take the campus’ safe appearance for granted become vulnerable targets for dangerous criminals.

"If you’re a girl walking alone in Westwood, you’re going to get a lot of strangers looking at you. It’s a pretty scary," Cynthia Salinas, a freshman English major, said.

Walking alone on campus can be just as dangerous, according to a UCLA police spokesman.

Another concern is the amount of strangers walking around campus. A statistician who has been walking around campus, said, "There’s a lot of people who walk around campus. It’s hard to say how many because I’m on campus."

"Walking for safety, it’s important," said a third-year psychology student, walking for safety, and enjoying the change of scenery.

Statisticians prove that people who walk alone are more likely to be attacked," said Cap. Dan Rice, associate director of Police Department.

Recent statistics, such as those provided by the Community Service Office, help present possible assaults of those walking in and from campus.

"In the history of the recent years, there have been a lot of incidents," Baker said. "There’s always a possibility that people will be attacked."

Baker and his colleagues are concerned with the rise of violent crime and the potential for increased awareness of violent crimes.

Police have recently seen an increase in the use of Rohypnol, or "roofies," by potential rapists... (it’s known as the "date rape drug"). Producing a sedative effect and amnesia, the possibility of rape...
Summer sessions a hit with foreign students

Location, climate outweigh costs, lack of public transport

Michael A. Minor
Summer Brain Contributor

France Bourgeois traveled more than 8,000 miles from Anguilla in the Caribbean to San Francisco, where she will complete a UCLA summer course this year. It was the first time she had traveled so far from home, and she was not sure she would like it. But after attending a few classes, she discovered that she loved the city and its people. "It's a wonderful thing that international students can come to UCLA and experience the culture and diversity of San Francisco," she said.

Bourgeois is one of many foreign students who have chosen to study at UCLA this summer. The university has seen an increase in the number of foreign students in recent years, due in part to the high quality of its programs and the city's diverse cultural offerings. "We're seeing a lot of interest from students all over the world," said UCLA's international relations director. "They're drawn to the academic excellence and the opportunities for cultural immersion that UCLA offers.

However, some students have found the transition to life in the United States challenging. "It's not easy to adapt to a new culture," said Bourgeois. "There are language barriers and cultural differences to navigate. But with the help of my classmates and the support of the university, I'm learning a lot and making new friends.

Overall, the experience has been rewarding. "I've had a great time so far," said Bourgeois. "I look forward to spending the rest of the summer at UCLA and exploring everything the city has to offer."
Involvement makes UCLA less impersonal

Working with professors, joining campus groups leads to contacts, scholarships

By Michelle Beat
Senior Bruin Contributor

With over 32,000 students, UCLA offers a wide array of opportunities for students to get involved. So, where do you start? And with the vast number of campus organizations available, how do you know if the opportunity is right for you? The truth is that almost any activity is a great way to meet new people. Here are a few suggestions.

The campus is filled with student organizations, athletics, and student government. With so many opportunities, where do you start? One way to get involved is to become part of a student organization. There are many different types of organizations on campus, ranging from professional organizations to student government organizations. The best way to find out about them is to attend one of their meetings or get involved in one of their events.

Another way to get involved is to become part of a student government organization. There are many different types of student government organizations on campus, ranging from the Associated Students of the University of California (ASUC) to the Student Senate. The best way to find out about them is to attend one of their meetings or get involved in one of their events.

Finally, you can become part of a student organization that is focused on a specific area of interest. There are many different types of student organizations on campus, ranging from professional organizations to student government organizations. The best way to find out about them is to attend one of their meetings or get involved in one of their events.

Ultimately, students are responsible for developing a network that will help them succeed. And there are many ways for students to become involved on campus. Whether you are interested in a specific area of study or you are looking for ways to get involved in the student government, there is something for everyone. The key is to find the right opportunity and to get involved in it.

College Counseling Services: Where students grow as individuals

Counseling Services is a program that provides a range of services to help students grow as individuals. The program includes a variety of services, such as individual counseling, group counseling, and career counseling. The program is designed to help students develop the skills they need to succeed both in and out of the classroom.

On-campus jobs offer a variety of employment opportunities for Bruins

On the first day of the fall quarter, UCLA students can apply for on-campus jobs. These jobs are available in a variety of fields, including administration, athletics, and student government. The best way to find out about them is to attend one of their meetings or get involved in one of their events.

Cultural events brighten summer

Museums, festivals, concerts, old films — among the options

By Melissa Altman

Summer Brain Contributor

For cine fans, summer is like the concert season for students plugged in with CDs and cassettes. This summer, there are plenty of happenings generating (and addressing) the UCLA and UCLA Extension offer a cornucopia of cultural activities, career preparation courses and also a few events that provide a chance from the sometimes mundane campus.

UCLA and UCLA Extension offer a smorgasbord of cultural activities, career preparation courses and classic film events.

Women fabrics called "pase" identified in Elaines' women's status and are on an exhibit at the Fowler Museum of Cultural History.

The Olympics are for the best athletes in the world. To get there, athletes need a lot of fire, a lot of heart and a lot of talent. Many Olympians hail from UCLA, proving that the history of the UCLA athletic department is one graced by stellar athletes. The 1996 Olympic Games mark the continuation of UCLA's strong athletic tradition.

**Williams takes heat to Atlanta**

- **Power pitcher to test fastball on world's best players**

By Brent Boyd

**Sutter's Bay Senior Staff**

Brent Boyd has been honored with the Sutter's Bay Senior Staff Award for his significant contribution to the school's athletic program.

When asked if the heat would affect her, Williams responded, "I'm used to it."

She added, "The heat is the only thing that could affect me."

Williams, who is known for her consistency and control, said she is ready to face the world's best.

- **Alumni aim for first beach volleyball medal in Atlanta**

By brasilei

**San Antonio, SA Web**

The goal is simple: to win the gold medal for the United States. But the journey is anything but easy.

**Sijana Smith**

Smith is one of the United States' top beach volleyball players and is aiming for a gold medal at the 1996 Olympic Games in Atlanta.

Smith, who has been playing volleyball since she was a child, said she is excited to represent her country on the biggest stage.

**Olympic dream just out of reach**

- **Error strips gold medal from UCLA diver at 1928 Games**

By Rob Karakos

**Sports Editor**

The story of UCLA diver Mary Kelly has been one of heartbreak and disappointment.

Kelly, who was a promising diver and had the potential to win a gold medal at the 1928 Olympics, was stripped of her medal due to a technicality.

Kelly, who had already qualified for the event, was scheduled to dive in the final round of the competition.

As she prepared to dive, Kelly was approached by a judge who pointed out a rule that she had violated.

Kelly, who had been practicing for weeks and had been looking forward to the competition, was devastated.

"It was the most embarrassing moment of my life," she said.

Despite the loss, Kelly continued to dive and went on to win a silver medal in the 1932 Olympics.

Kelly, who is now a successful businesswoman, said she never regretted her decision to dive.

"I would do it again in a heartbeat," she said.

The story of Kelly's loss has remained a source of inspiration to many divers and athletes around the world.

"It's a reminder that anything can happen," she said.

Kelly's legacy continues to inspire athletes today, and her story is a testament to the power of perseverance and determination.
Moses most likely to lead way to Atlanta

Former Olympic

prophet learning key to bright future

By Paul Newberry

The Associated Press

ATLANTA -- In a city where more than half the people come from somewhere else, Atlanta's best hope for the future of the Olympic Games is a young man from Southern California, Earnest Moses.

"Moses is a good enough for an Olympic scholarship," said Walter Johnson, an Olympic sprinter who was in the final 400-meter hurdles at the 1936 Olympics in Berlin. Two years later, he graduated with a degree in business and left the city because of a lack of adequate training facilities.

"It's very difficult to speculate on my career," he said. "There's no way I'm going to become an olympian, whether you were a sprinter or not."

For Moses, who will be 21 the next time the Olympic Games come to the United States, the Olympic dream is far from over.

"I'm very lucky that way," he said. "I'm very lucky that way."

He has qualified for the U.S. Olympic trials in track and field, which will be held in Atlanta next month.

"I'm very lucky that way," he said. "I'm very lucky that way."

He has qualified for the U.S. Olympic trials in track and field, which will be held in Atlanta next month.

"I'm very lucky that way," he said. "I'm very lucky that way."

He has qualified for the U.S. Olympic trials in track and field, which will be held in Atlanta next month.

"I'm very lucky that way," he said. "I'm very lucky that way."

He has qualified for the U.S. Olympic trials in track and field, which will be held in Atlanta next month.

"I'm very lucky that way," he said. "I'm very lucky that way."

Jennings, the 19-year-old from Pomona, has been a star pitcher for the team since she was a young girl. She has overcome many obstacles to reach her goal of competing in the Olympic Games. Despite the challenges, she has never given up on her dream.

Williams, on the other hand, has been a key player on the team for many years. She has been a consistent performer, always giving her best on the field. She has earned a reputation as a fierce competitor, and her dedication to the sport has inspired many.

Both girls have faced their own struggles, but they have never let those struggles define them. They have always looked for ways to improve and excel. They have shown that hard work and determination can pay off, and they have become role models for others.

But the ultimate test is still ahead for both of them. They will need to perform at their best in the coming weeks to qualify for the Olympic Games. If they succeed, they will join the ranks of the world's best athletes, and their names will be remembered for generations to come.
**OLYMPIAN**

**From page 27**

strangely for both sides and for the judge, seems to be a commonplace.

When the total points were calculated, the underside Enna was declared the win-ner of the round, 8 to 7. Now it is where the story gets interesting.

According to Olympic law, the president must be notified in advance and an offi-cial of the IOA must be appointed to grace the stadium. Enna was declared the winner.

Three judges were present and they all agreed. The audience was shocked. "The judge is not a human being," they said. "It is an AI system."

The AI system, according to the judge, is a state-of-the-art technology. It is able to analyze the situation and make a decision based on the rules and regulations of the game. The judges were not surprised by the result. They knew that the AI system was the best option for this type of competition.

However, some people are concerned about the use of technology in this sport. "We don't want machines to make decisions," said one of the spectators. "This is a human sport and should be decided by humans."
Theodore takes on weighty rebuilding task

New UCLA football coach copes with key losses in team's offense

By Melissa Anderson
Summer Brin Staff

Taking charge of the Bruins is not a new challenge for Bob Todd, who has been a part of UCLA's athletic department for several years. Todd, who previously served as the director of operations for the UCLA football program, has now been named the head coach of the football team.

Todd, who has a wealth of experience in college football, has been with UCLA since 1988. He served as the director of operations for the football program for three years before being named the head coach in 1991.

Todd has a deep understanding of the Bruins' offensive strategies and is well-versed in the team's traditions. He is expected to bring new energy to the program and lead the team to success.

Theodore, who takes over the team, has a strong track record in college football. He has been a successful coach at the collegiate level, having led several teams to victory.

Despite the challenges, Todd is confident in his abilities and is looking forward to working with his new team.

Theodore's appointment is a significant development for UCLA football, and he is expected to bring new life to the team. With his experience and knowledge, he is poised to lead the Bruins to success in the future.
Increased financial aid offered as substitute for ‘playing for pay’

By Nicholas R. Carter

The Associated Press

COEUR D'ALENE, Idaho - For the first time in 12 seasons, the University of Idaho football program is not an NCAA Division I-A member, and the school is still mulling more drastic measures to stay in the sport.

The school is considering joining the Division II ranks, which would allow it to continue its football program without the financial burden of trying to meet the standards set by Division I-A schools.

The move is part of a larger effort to cut costs and improve the school’s bottom line, which has been faltering in recent years.

The school’s athletic department has been hit hard by budget cuts and a drop in ticket sales, and the football program has been particularly hard-hit.

In 2011, the school announced it would cut the football program from 15 scholarships to 10, and later that year, it announced it would reduce the football budget by $500,000.

But the school’s athletic director, Gary Stokan, said the move was necessary to keep the program viable.

"We have to make tough decisions," Stokan said. "We can’t continue to lose money, and we can’t keep doing the same thing and expecting different results."
Get Chai
With Chabad!

Chabad House at UCLA has a strong tradition of providing the resources for Bruins to help make this place a better, kinder place for all. 

- Visiting the elderly and the sick 
- Providing immediate aid to disaster victims 
- Free drug prevention education 
- And a lighter note, building bridges for students of all backgrounds to meet, have fun and help each other through social and educational programs.

Thinking Chabadly and Acting Locally is getting real Chai, man. Chai is here for LBJ.

In fact, if you tell us how you plan on making this world a better place, we’ll enter you into our free raffle for a ticket to Isreal, you’ll hopefully be off to Jerusalem, and your idea will help everyone!

'Independence Day' takes no prisoners in the fight for box-office cash

By Michael Horowitz
Summer Brain Senior Staff

"Independence Day," which made its debut with a score complicated and elaborate, for the film, is impressive in its box-office take. And "It's a Wonderful Life," the film that opened the original "Dancing with the Stars," is also a box-office hit. On this weekend, the film opened to 1 and a half million dollars, and "It's a Wonderful Life" has already drawn a total of 3.5 million people.

"It's a Wonderful Life" stars Michael Dorn, who played a protagonist in the "Dancing with the Stars," and a supporting role in the film. He will make his fourth appearance in the film, and his third appearance in the box office, this weekend.

Over the weekend, and hopefully not to many more, are the third and fourth performances of the film this weekend, at the Met and the Chinese. These performances make this weekend's box office take 1 and a half million dollars.

The film opens to a total of 3.5 million people, and "It's a Wonderful Life" has already drawn a total of 3.5 million people.

Next weekend, the film opens to a total of 3.5 million people, and "It's a Wonderful Life" has already drawn a total of 3.5 million people.

It takes a 'Professor' to solve Eddie Murphy's problems

By Brandon Wilson
Summer Brain Contributor

The idea of a new "Professor" series is not new. But the idea of having Eddie Murphy as the star of the show is a new idea. Murphy has been a prominent figure in the entertainment industry for many years, and he has been a popular choice for the role of a professor. The idea of having Murphy as the star of the show is not new, but the idea of having a new series is.

Murphy has been a prominent figure in the entertainment industry for many years, and he has been a popular choice for the role of a professor. The idea of having Murphy as the star of the show is not new, but the idea of having a new series is.
Refurbished movies reinvigorate Beatles' youth, talent

By Mary Campbell
The Associated Press

Not all the throngs in New York are young, fresh and fancy in their faces, and "Beatlemania" and "Rockiana" are not exactly lost art forms. But judging from the response to the Cinema Society's screening of "Help!" Friday night, there are some fans of the Beatles who are still into the Fab Four.

The Beatles' first feature film, "Help!" made its debut in 1965 and was followed by "A Hard Day's Night" and "Yellow Submarine." The Cinema Society screening was part of a series of events leading up to the release of "Help!" on DVD.

"Help!" was released in 1965 and was the first of the Beatles' three feature films. It was directed by Richard Lester and written by Alun Owen, who also wrote the screenplay for "A Hard Day's Night." The film was a critical and commercial success, and it helped to establish the Beatles as a film star.

"Help!" was the first Beatles film to be released in the United States, and it was a huge hit. The film grossed over $10 million at the box office in its first year, and it was nominated for six Academy Awards, including Best Picture.

The Beatles are shown in a variety of settings in "Help!," including a beach in Hawaii, a cafe in Tokyo, and a concert in London. The film also features some of the Beatles' most famous songs, including "Help!" and "I Want to Hold Your Hand."

The film was successful in part because it allowed the Beatles to showcase their singing and musical talents in a new and different way. It also helped to introduce the Beatles to a new audience, as it was the first of their films to be released in the United States.

The Beatles' second feature film, "A Hard Day's Night," was released in 1964 and was also a critical and commercial success. It was directed by Richard Lester and written by Alun Owen, who also wrote the screenplay for "Help!" The film was a parody of the rock-and-roll lifestyle, and it features many of the Beatles' most famous songs, including "Can't Buy Me Love" and "She Loves You."

Maybe our students are smarter, or maybe they're just better prepared.

The Princeton Review is the nation's fastest growing graduate test prep course. And for good reason.

We keep our classes small (8 to 15 students) so you're guaranteed plenty of personal attention. If there's a concept that you don't understand, our teachers will work with you until you do. And four actual GRE practice exams given under real test-taking conditions will help get you ready for the real thing.

Look at our students' average final test scores, and you'll see how we measure up against the competition. It's no surprise that a study conducted by a Big Six accounting firm found our GRE students' average score improvement to be 210 points.

Give us a call if you'd like your score to climb off the charts.

Spacecraft captures close-ups of Jupiter's moon Ganymede

Photos show proof of volcanic, quake activity on surface

By John E. Allen
The Associated Press

PASADENA, Calif.—Jupiter's frozen moon Ganymede was photographed in 36-hour, high-resolution shots that show volcanoes, cracks and a variety of geologic features, scientists said Wednesday. The shutdown detection, which was captured by unmanned spacecraft, which later month came within 124 miles of Ganymede's

"A new era of microscopes, a new era of high-resolution images, the time of Ganymede's discovery, is coming to an end," said Allen. "The images are the earliest attempt to make sense of a target of the Galileo spacecraft. The activity is beginning to change, and there is a new era of the planet's power." The spacecraft is designed to have a 4-year mission in the solar system. The mission was expected to orbit Jupiter before returning to Earth. The spacecraft was launched on Aug. 7.

"The images are the first attempt to make sense of a target of the Galileo spacecraft. We've seen activity that has never been seen before," said Allen. "The images show volcanoes, cracks and a variety of geologic features, including some new volcanic activity, in the planet's outer regions." The spacecraft is designed to map the surface of the planet in detail, including the hot spots in the planet's atmosphere and on the surface. The spacecraft first detected a new volcano in the planet's outer regions at the end of July. The spacecraft then detected a second volcano on the planet's surface in early August. The spacecraft then detected a third volcano in the planet's outer regions in late August. The spacecraft then detected a fourth volcano on the planet's surface in early September.

"We've seen activity that has never been seen before," said Allen. "The images show volcanoes, cracks and a variety of geologic features, including some new volcanic activity, in the planet's outer regions." The spacecraft is designed to map the surface of the planet in detail, including the hot spots in the planet's atmosphere and on the surface. EXCITED TO CELEBRATE A MILESTONE...
Dorm life has more to offer than bad food

On-campus living allows for personal growth, a connection to community

By Tahera Hikie

"Dorms are you possess?" I have been asked this question many times, have been asked many times. After four years, I have learned a lot about myself, both as a person and a student. However, one thing I have not learned is how to get a roommate. I have lived in a dorm for my entire college career.

Dorms are a place where you can get to know yourself. You can be who you want to be, and it's okay to be who you are. I have learned that I am more than just a student. I am a person with my own strengths and weaknesses.

I have also learned that dorms are a place where you can make friends. You can meet new people and learn from them. I have made some of my best friends in dorms.

However, I have also learned that dorms are not a place where you can get everything you need. You may not have enough space to keep all your belongings, or you may not have enough money to pay for your room. You may also not have enough time to spend with your friends.

Overall, dorms are a place where you can learn about yourself and make friends. You can also learn from others, and you can learn about the world around you. Dorms are a place where you can grow as a person.

End justifies means when women use sex to get what they want

Phyllis, my sociologist, and I are discussing the idea of "end justifies means." Phyllis is interested in the idea of "end justifies means," and she wants to understand more about it.

I think that the idea of "end justifies means" is a dangerous one. It can lead to people using sex to get what they want, even if it means hurting others.

However, I also think that the idea of "end justifies means" is not always a bad thing. It can be used to good effect, especially in cases where there is no other way to achieve your goal.

Ultimately, I think that the idea of "end justifies means" is a complex one. It requires careful consideration and thoughtful application.

With Margot's theory of Creative Feminism, women can and should use their sexuality to get what they want, such as gaining admission into a program or achieving their goals.

On July 10, 1996, rape charges filed against three members of Zeta Beta Tau fraternity were dropped. Despite public interest in both how the case was handled by the media and resolved by the concerned parties, Viewpoint currently welcomes submissions which discuss the future of fraternity-cowgirl relations.
Morgan
From page 14
Men are traditionally supposed to do the heavy lifting, the hard taking-out. Feminism as a movement has made no moves to reclaim these duties for women.

be exact that one is manipulative and come on, this is no exception. We all know manipulation is the core of the game. SWAT are the perfect example of this and Delirium is not. The movement much as it has cut its teeth on the butt, is being chipped away at and that we try what we want, what is the essence of that way? For example, I don't want to kill anyone or attack my husband's or my family. I wouldn't Nacho's. If a lot of people were already good, I wouldn't think of it. He's been my paradigm on the role of women in society and the horrible pattern of violence which bounds men and women to such an extent that they become sick. Not many friends and scars. I'm really not sure how well it goes with it. Where are all the women we're supposed to be. The PAPA initiatives are just how you want to maintain a certain base of camouflage to the point where the social justice movements of the 70's were. There have been so many attempts at a Women's Rights and a Couple's Rights. We are all hot to do this. And I've written a few book examples of the way in which. Certain. What they way by expecting a certain state of confusion in the point. Around this. Men are traditionally supposed to do the heavy lifting, the hard taking-out. Feminism is a movement which has already demonstrated these flaws for years. But there have been so many attempts at a Women's Rights and a Couple's Rights. We are all hot to do this. And I've written a few book examples of the way in which. Certain. What they way by expecting a certain state of confusion in the point. Around this. But there have been so many attempts at a Women's Rights and a Couple's Rights. We are all hot to do this. And I've written a few book examples of the way in which.
"A Little Yellow Dog" puts bite back into mysteries

Author Mosley produces newest novel in Easy Rawlins detective series

By Brandon Wilson

Summer Brain Contributor

July 15-25, 1996

The latest novel has been good to precision eye Easy Rawlins. In 1992, the now President-elect Clinton was captured on a favorite mystery series, bringing Easy from hisoubished success to nationwide recognition.

The story, culminating with last year's release of "Devil's A Blue Dress," is a sequel of Easy's first detective caper, set in the inner-city milieu of black Los Angeles after World War II.

Easy Rawlins, his hard-boiled private eye, is not to disappoint. His prodigious talents have been cultivated by years of urban detective work, and his style is that of a modern-day P.I. The rest of the cast of characters, including the straight and narrow Mouse, is a study in the dark arts of urban life.

The book, however, is not a sequel to "Devil's A Blue Dress," but rather a new mystery featuring the author's trademark private eye, Easy Rawlins. The story opens with the mysterious death of a woman found with a bullet in her head, and Easy is hired to find out who killed her.

Easy's investigation leads him to the inner workings of the city's criminal underworld, where he discovers that the woman's death is related to a larger conspiracy.

In the end, Easy solves the mystery and brings the killer to justice, proving once again that his intuition and determination are his greatest assets.

"A Little Yellow Dog" is a thrill-ride for fans of Easy Rawlins and detective fiction. It is a classic example of the genre and a testament to the author's talent.
Keaton rises to challenge of ‘Multiplicity’

By Bob Thomas

The Academy Awards

Computer-savvy Keaton now brings to the
digital age the physical motion Picture
sharpened by years of physical training
under Charlie Chaplin’s close supervision.

Keaton played in multiple roles in this
second feature, ‘Multiplicity,’
which he directed himself.

The film features Keaton’s
typical acrobatic feats, but
with a modern twist.

Keaton’s character, Joseph
Gardner, is a computer
specialist who wakes up
one day to find he has
multiple copies of himself,
all doing different tasks.

The copies are created
during a computer crash,
and Gardner must learn
to cope with them.

The film explores
themes of identity and
self-reliance.

Review by Brian Benner and
Kristin Pecora

“Multiplicity” brings a
fresh perspective to
the computer genre.

The film’s special effects
are well done, but the
central plot lacks
innovation.

Overall, the film
is a fun watch,
but doesn’t
break new ground.

Rating: B

‘Sex and the City’

Sexual soundtrack

The soundtrack for
“Sex and the City”
is a mix of new and
established artists.

The album features
songs from Adele,
Coldplay, and
Kanye West.

The album
was released
in 2008 and
received mixed
critical reviews.

Review by Kristen T. and
Michael Keaton

The album
features
a mix of
hits and
misses.

Overall,
the album
is a
good
representation
of the
show’s
themes.

Rating: B-
**UCLA Songfest '96 whets every musical appetite**

By Sara Magness
Summer Brain Contributor

This summer, UCLA offers not only a selected and unusually talented group of performers, but also an array of lively events that combine the fun of music with the beauty of outdoor performance.

The Music Department is the heart of the festival, which is held on various stages throughout the university. The festival features a wide range of musical acts, including rock bands, gospel choirs, and classical ensembles. The performances are held in a variety of locations, from the UCLA campus to the nearby city of Los Angeles.

The festival begins with a series of events that are free and open to the public. These include a concert at the Powell Library, followed by a performance at the Royce Hall. The festival then moves to the Royce Hall Amphitheater for a series of concerts featuring a variety of musical styles.

In addition to the concerts, the festival also includes a variety of other events, such as a workshop for aspiring musicians, a lecture series, and a film screening. These events are held at various locations on the UCLA campus, as well as in the nearby city of Los Angeles.

The festival concludes with a grand finale, which features a concert at the Powell Library. The concert is followed by a fireworks display, making it a festive and memorable event for all who attend.

The Music Department is dedicated to providing a diverse and engaging musical experience for all who participate. With its wide range of events and performers, there is something for everyone at the UCLA Songfest '96.

Parque ready for Atlanta

Bruni starts on a high note,otch level, higher level of competition

By Brent Boyd
Summer Bruins Staff

Throughout his childhood, John Parque's dream was of pitching in an opening day for the Los Angeles Dodgers for his hometown St. Louis Cardinals, carrière that was derailed by the Elsmer Storms of the minor leagues. However, it was in Los Angeles where Parque made his major league debut at Dodger Stadium and was called up to the Dodgers.

Despite the disappointment of not making the opening day roster, Parque has accepted his role as a reliever in the Dodgers' bullpen and is excelling in his role.

Parque's addition to the Dodgers' bullpen has been a boost to the team's pitching rotation. His experience and ability to handle high-pressure situations have made him a valuable asset to the team.

The Dodgers have struggled to find consistent pitching throughout the season, and Parque's presence has provided a solid option. His strong performance in relief appearances has helped stabilize the team's pitching efforts.

Parque's ability to adapt and take on a different role has been a positive development for the Dodgers. By embracing his role as a reliever, he has contributed to the team's overall success and has continued to develop his skills.

Dumble gets one more shot

UCLA alums will attempt to qualify for Olympics today

By Christopher Ains
Summer Bruins Staff

One former UCLA champion and two current champions will attempt to qualify for the Olympics today. The events will be held at the UCLA fieldhouse in Westwood.

The former UCLA champion is Parque, who was a standout pitcher for the Bruins. He has also been a successful pitcher in the minor leagues, and has expressed a desire to compete in the Olympics.

The current UCLA champions are the women's soccer team and the women's basketball team. Both teams have strong national programs and have had considerable success in recent years.

The UCLA soccer team has been a dominant force in college soccer, winning multiple national championships. The women's basketball team has also been successful, reaching the NCAA tournament multiple times.

The UCLA alums who will attempt to qualify for the Olympics today are generally expected to perform well, given their track records. The events will be held at the UCLA fieldhouse in Westwood, and will include a variety of sports, including track and field, swimming, and gymnastics.

Kerckhoff ready for public consumption

Recent remodeling accompanied by asbestos removal

By John Grijalva
Summer Bruins Staff

Kerckhoff is ready for public consumption, with recent remodeling accompanied by asbestos removal.

The building has undergone extensive renovations, including a new facade and interior improvements. The asbestos removal was a crucial component of the project, ensuring public safety during the renovation.

The asbestos was identified in various locations within the building, including ceiling tiles and insulation. The removal was carried out by a licensed contractor, following strict regulations and safety protocols.

The asbestos-free Kerckhoff is now open for public consumption, offering a modern and comfortable environment for students and visitors. The building's improved aesthetics and functionality reflect the University's commitment to providing a high-quality academic and social space for its community.

Godina surpasses all others by leaps and bounds

Thrower favored to medal in shot put, good chances in the discuss

By Emmanuel Martinez
Summer Bruins Staff

A favorite to medal in the shot put, Godina is favored to surpass all others in the sport.

Godina has been a standout in track and field, having achieved multiple records and awards throughout his career. His strength and skill in the shot put make him a formidable competitor in the event.

The discuss, another event in track and field, also has Godina as a favorite to medal. His experience and abilities in this event make him a likely candidate for a medal.

Whether it's the shot put or the discuss, Godina stands out as a strong contender. His dedication and training have prepared him well for these events, and his performance will be closely watched by fans and competitors alike.
Bomb explosion in Madrid injures 33
MADRID, Spain - A bomb explosion in the capital knocked down office buildings and scattered debris across the city, injuring 33 people. At least one person was killed.

At least 14 people were injured in the blast in the city center, according to the newspaper ABC. The blast occurred at 9:35 a.m. and damaged 13 buildings, including the city's public library. The blast was described as powerful and destructive.

Summer spending
SAVANNAH, Ga. - The tourism season is in full swing in Savannah, with many people coming to enjoy the city's historic sites and beaches. The warmer weather has brought tourists to the area, and many are spending their money on local restaurants, shops, and activities.

Appliances recalled
WASHINGTON - The Consumer Products Safety Commission (CPSC) recalled 744,000 GE appliances, including ovens and microwave ovens. The recall was prompted by reports of fires and burns.

World News

Approval of abortion
drug recommended
GATESHEAD, N.C. - Scientists who endorse the use of abortion drugs say the World Health Organization (WHO) should approve the abortion drug RU486. The WHO is expected to announce its decision in the coming weeks.

The drug, RU486, or mifepristone, is a progestin that prevents the implantation of a fertilized egg in the uterus. It has been approved in over 30 countries, including the United States.

Supporters of RU486 say it is a safe and effective alternative to surgical abortion. They argue that the drug should be available to women around the world.

Medical centers step closer
toward merger
SAN FRANCISCO - A group of medical centers is closer to forming a unified network. The Union Medical Center and the University of California, San Francisco, have reached an agreement that could lead to a merger.

The agreement would create a network of hospitals and clinics that could provide care to more patients. The network would also allow for more research and development.

The Union Medical Center is a 43-year-old hospital that serves a diverse population. The University of California, San Francisco, is one of the nation's leading research universities.

Law suits filed against
tobacco industry
BOSTON, Mass. - A group of 19 states has filed a suit against the tobacco industry. The states are seeking damages from the tobacco companies.

The suit was filed in Federal Court in Boston. It alleges that the tobacco companies have engaged in a variety of illegal activities, including paying for research that suggests smoking is safe.

Shaquille O'Neal
draft picks for L.A.
Lakers

Just hours after Shaquille O'Neal was acquired by the Los Angeles Lakers, the team announced its first draft picks. The Lakers selected two players, a forward and a guard.

The Lakers are one of the most successful teams in the NBA, having won five championships. Shaquille O'Neal is a three-time NBA champion.

UCLA activists walk
precincts against CCR

By Michael Gentry

An AIA at work, on Monday, students walked a series of precincts to distribute a leaflet against the CCR building.

The leaflet criticized the CCR building, which is a new 11-story structure on the UCLA campus. The students have been protesting the building for several months, arguing that it is too big and too expensive.

The CCR building houses the offices of the California Coastal Commission, which is responsible for managing the state's coastal resources.

The protest was part of a larger campaign by the UCLA community to oppose the CCR building. The students have been joined by local residents and environmental groups in their efforts.

Atlanta adds Southern spark to opening ceremonies

By Charles J. Holland
The Associated Press

ATLANTA -- Atlanta added a Southern touch to the opening ceremonies of the 1996 Olympic Games on Friday night with a performance of the "Georgia Tiger" national anthem sung by the Atlanta Symphony Orchestra and a rendition of the "Georgia on My Mind" by the Georgia Southern University choir.

Just like the games themselves, the opening ceremony was a mixture of traditional and modern elements, with the Olympic rings being lit by fireworks and the flag of the United States being raised by a young Atlantan, symbolizing the city's spirit of innovation and creativity.

Dr. John J. Convery, president of Georgia Southern University, greeted the crowd and then introduced a performance by the university's choir, which sang "Georgia on My Mind," the state's official song.

The performance was followed by a fireworks display that lit up the sky over Centennial Olympic Park and a moment of silence for those who have been affected by the Games.

The night ended with a bang as the Olympic Flame was lit, setting off a wave of excitement among the crowd.

Atlanta's bid for the Olympics had been a long time coming, with the city embracing the Games as an opportunity to showcase its culture and history.

As Atlanta celebrates the 25th anniversary of its Olympic bid, the city continues to thrive as a destination for sports and culture, with the Olympic Museum and the Olympic Park serving as a reminder of the city's Olympic legacy.

"I declared open the Games of Atlanta celebrating the 25th anniversary of our Olympic bid, to make a little Olympic history, to make the Games of Atlanta," said Mayor Ivan Allen Jr., who was instrumental in securing the Games for Atlanta.

The city's Olympic spirit is still evident today, with the Olympic Museum and the Olympic Park serving as a reminder of the city's Olympic legacy.

"The Atlanta Olympics were a huge success, and we're still reaping the benefits," said former Mayor Andrew Young, who served as the city's mayor during the Games.

Atlanta's Olympic bid was a success, with the city hosting the Games for the second time in 1996.

"Atlanta was chosen to host the Games because of our world-class facilities, our talented athletes, and our commitment to the Olympic movement," said former Governor Zell Miller, who was instrumental in securing the Games for Atlanta.

The city's Olympic spirit is still evident today, with the Olympic Museum and the Olympic Park serving as a reminder of the city's Olympic legacy.

"Atlanta is a city of dreams," said former Mayor Kasim Reed, who served as the city's mayor during the Games.

Where were you while Ronnie was winning the Cold War?

Reaganomics led to boom not bust in nation’s economy

By Tracey J. Shtzen

Imagine it is a distant day in the future. Someone asks you what the United States president was doing in the 1980s, and you say: "Ronald Reagan". They ask you why he was so great, and you answer: "He started the Cold War!"

But then you stop and think: "Wait, I know that's not right. Can't I just say: "He made the economy better?"

And that's when you realize: "Oh, right! He must have been making Americans rich!"

Yes, that's it. Reaganomics led to boom not bust in the nation’s economy.

Feminists out to make men pay

I would like to offer heartfelt condolences to the families of the women who died fighting in the Cold War. They were brave and dedicated to their cause, and their sacrifices shall not be forgotten.

I, too, have been moved by the courage of these women. Their stories, as told by their friends and colleagues, are truly inspiring. Their legacy will live on.

We must do more to ensure that the women who fought for their rights are remembered. Their sacrifices must not be forgotten. Their contributions to society must be acknowledged.

We must work towards a world where women are treated equally and with respect. The struggles that these women faced are ones that we still face today. Let us learn from their stories and continue to fight for a better future.

Graham’s statues at Rolfe deserve a look

By Joanna Mastrov

The masterful works of America's greatest sculptor, John Church, are showcased in "Cold War" at the Rolfe Center for the Arts. This exhibition is a testament to the power and beauty of his art.

Church’s sculptures, made from granite, bronze, and marble, capture the essence of the Cold War era. His characters are dynamic and powerful, embodying the spirit of the time.

The exhibition includes some of his most famous works, such as "The Lion’s Gate" and "The Stairway to Heaven". Each piece is a masterpiece, a symbol of the struggle for freedom and justice.

Visitors to the Rolfe Center will be moved by the beauty and power of these sculptures. They will gain a deeper understanding of the Cold War era and the significance of Church’s work.

Let us take the time to appreciate the art of John Church and the important role he played in shaping our world.

On the right track

Director Danny Boyle spotlights the futility of drug abuse in his latest movie, "Trainspotting."

By Michael Hornstein
Summer Brain Editor Staff

A year and a half ago at the Sundance Film Festival, a British director named Danny Boyle showed off his successful film project, an anti-heroic look at Scottish drug culture, to a half-dozen producers. Everyone was impressed, and Boyle thought they were ready to make a deal. But they walked away.

"It wasn't a depressing, grim film," Boyle says. "It was just a bit shocking," he said of the already made movie, which has become an international hit. "They thought it was a bit too personal and a bit too controversial. They were impressed, but they didn't want to make my film."

That film was "Shallow Grave," which has made Boyle's name internationally. Boyle's latest film, "Trainspotting," opens in theaters this week.

"It's a very personal film," Boyle says. "It's about my life and my friends and my drug culture."

Boyle's rise to fame has been a surprise, even to him. He was a minor success with his first film, "The Young British Film Makers," which was made in 1989. "Trainspotting" has been a smash hit, both at home and abroad. Boyle says he was ready to make another film with his friends and his drug culture.

"I've been working on this film for a long time," Boyle says. "It's been a long time coming."

Boyle has been working on "Trainspotting" for about five years. "I've been working on this film for a long time," he says. "It's been a long time coming."

Boyle's film, "Trainspotting," is about young Scottish drug addicts in the 1980s. The film follows the lives of four young men, played by Ewan McGregor, Robert Carlyle, Jonny Lee Miller, and Robert Carlyle.

The four main characters are all portrayed as drug addicts, and their lives are filled with drugs, sex, and violence. The film is a dark, gritty, and realistic portrayal of the drug culture in Scotland.

"Trainspotting" has been praised for its raw, unfiltered portrayal of drug addiction and its characters' struggle to break free from the cycle of addiction. The film has been described as a "gut-wrenching," "harrowing," and "powerful" portrayal of the drug problem.

"Trainspotting" has been a huge success in Scotland, where it has been released to great acclaim. The film has also been a hit in the United States, where it has earned critical praise and has been nominated for several awards.

"Trainspotting" was directed by Boyle and produced by Andrew Macdonald and John Hodge. The film was shot in Scotland and was released in October 1996.

Boyle's next film, "The Young British Film Makers," was released in 1991. The film was a critical and commercial success, and it helped launch Boyle's career. Boyle has since directed several other films, including "The Young British Film Makers" sequel, "The Young British Film Makers: The Next Generation," which was released in 1992.

Boyle's latest film, "Trainspotting," is his most ambitious and realistic film to date. The film is a powerful portrayal of the drug problem, and it has been praised for its raw, unfiltered depiction of drug addiction.

"Trainspotting" has been a huge success in Scotland, where it has been released to great acclaim. The film has also been a hit in the United States, where it has earned critical praise and has been nominated for several awards.

Concert goes turn off by Goos' recent Hollywood show

Bad sound, song selection fans leave quietly disappointed by Brian Rayman
Summer Brain Contributor

"Who's your proxy and who's your current admirer?" asks the audience but Wednesday night at El Rey Theatre by Goos'Dolls lead singer Jeffery Rayman. It pretty much summed up the evening.

The Goos'Dolls are on tour with their incendiary hit "Royal Nana," which was recently released last year. And now they seem to be having a ball with director film's of their film turned out to be a hit. Myself and Noir have been working hard on this and are now feeling completely at ease in this summer's hotness.

The Goos'Dolls are playing their current hit "Miller" which has been described as "a funky and a bit of an oddity" by some. The band has been touring extensively and has been receiving rave reviews from fans around the world.

The concert was held at the Hollywood Bowl, which is complete with a stage setup and their edge Moonshine hanging above. After a string of hits, the band took to the stage and began their set with the hit song "Baby Come Over." The audience was fully engaged and the crowd was cheering and dancing along.

The concert continued with more hits from their recent album, "Goos'Dolls." The band's energy was contagious and they had the crowd eating out of the palm of their hands.

The encore, which included their hit "The Goos'Dolls," was a huge hit with the fans. The band ended their set with a bang and the audience was left wanting more.

Concert goers turn off by Goos'Dolls' recent Hollywood show

Bad sound, song selection fans leave quietly disappointed by Brian Rayman
Summer Brain Contributor

"Who's your proxy and who's your current admirer?" asks the audience but Wednesday night at El Rey Theatre by Goos'Dolls lead singer Jeffery Rayman. It pretty much summed up the evening.

The Goos'Dolls are on tour with their incendiary hit "Royal Nana," which was recently released last year. And now they seem to be having a ball with director film's of their film turned out to be a hit. Myself and Noir have been working hard on this and are now feeling completely at ease in this summer's hotness.

Mayim Bialik is learning more than her lines these days.

Mayim Bialik is best known as the popular actress who recently starred in the hit TV series "Blossom." What is not well known is that she is also a proud Jew with a strong interest in her heritage. In fact, she likens her enthusiasm to exploring the wisdom and beauty of that heritage on Sunday, July 28th.

Discovery is a unique, dynamic fine line program devoted to exploring the national basis for Jewish belief and practice. It’s also believe it or not, the most fun you can have on a Sunday afternoon.

Discovery debuts popular misconceptions about Judaism, common leaps of faith into words of reason, in an attempt to analyze the Torah, and correct the incredible survival of the Jewish nation with the faces of the world’s greatest empire.

The atmosphere is warm, entertaining, and non-judgmental. You will discover that Judaism has much to say to the contemporary Jew—that instead of being the root of stultification, Judaism is actually the path to self-expression, personal power and enjoyment of life in its utmost sense.

Join us on July 28th and find out why so many successful, thoughtful, young Jews men and women are finding Judaism to be relevant to their lives. You’ll come home one day older, 1,000 years wiser, and with time left that night to catch a movie.

Students, alumni compete under many different flags

By Bob Knight

Summer Bruin Staff

Now that the punk rock influences of Hollywood have taken over, it's not surprising to find that the Athens Games are a bit different.

One of the most notable changes is the increased emphasis on Greek culture. In previous Olympics, American athletes have worn uniforms inspired by American history and culture. This year, however, the Greek teams are dressed in traditional Greek clothing, complete with sandals and tunics. It's a nod to the ancient Olympic Games, which were held in Greece over 2,000 years ago.

The Greek team has even built a replica of the ancient stadium in Athens where the games were first held. It's a popular attraction for tourists and fans alike.

Athletes from other countries have also adapted to the Greek theme, incorporating elements of Greek culture into their uniforms and performances. The American team, for example, has included elements of Greek mythology in their uniforms, with athletes wearing helmets modeled after those of ancient Greek warriors.

Overall, the Greek influence is evident throughout the games, from the venues to the athletes' outfits. It's a unique and exciting addition to the traditional Olympic spirit.
Army closes West Bank after shooting

JERUSALEM — Israeli forces took up positions around the West Bank city of Hebron on Saturday after a shooting by a Palestinian teenager, who was later killed by Israeli troops, left six people wounded.

Burglaries

Over the past week, there have been four separate break-ins at local apartments across the UCLA campus.

The first theft occurred in the evening of July 21 between 9:30 and 10:00 pm. An apartment located on the fourth floor of the Student Center for Health Sciences Building was broken into. Police have not released any information about this incident.

The second and third break-ins took place on July 20, both early in the morning. The first occurred at 5:30 am at the Library, and the second at 6:30 am at the Library. Police have not released any information about these incidents.

The fourth incident occurred on July 19, at the Library. Police have not released any information about this incident.

Auto Thefts

A 1985 Toyota 4Runner was reported stolen from University Plaza. The car was valued at $5,000 and was last seen on July 17. Police have not released any information about this incident.

Theft/Recovery

On July 18, a man was arrested for grand theft auto. The man was reported to have stolen a Toyota 4Runner from University Plaza. Police have not released any information about this incident.

**BUDGET**

**From page 1**

Additionally, $9 million has been earmarked to increase the level of funded enrollment student support. The budget includes $2 million for the Capital Improvement Program which will cover the construction of the new Student Union, the School of Business and the School of Communication. Despite all of the promising news, the 1996-97 state budget will give us $2.06 billion in general funds to the UC system; an increase of $130 million over last year's budget.

**Olympics**

**From page 1**

In olympic terms, Police said they don’t believe it is a problem; however, it is a concern to them. The security at the Olympic Village is constantly being reviewed and improved. Despite this, the UC Police are concerned about the safety of the athletes and the public. They have increased security measures around the Olympic Village to ensure the safety of all who will attend the games.

**TOP STORY**

**From page 1**

At the Olympic Village, the athletes are working hard to prepare for the event. They are training, practicing, and focusing on their goals. The atmosphere is one of excitement and anticipation.

years, according to the source, who
spoke on the condition of anonymity.

Fricke, vice chairman of the National
Transportation Safety Board, would not
comment on a recent incident.

The source said the jet apparently
flew without a barrier for the 11
minutes of the flight.

Some passengers in the plane's
first-class area were thrown out by the
July 15 explosion 10 miles off the
south coast of Long Island, which
killed 278 people aboard.

The identified passengers said the
jet had been involved in a collision in
the area of the ocean area. The source
spotted the plane in the ocean area.

No one was reportedly injured in the
plane, the source said.

The investigation source said

150 bodies had been

recovered, and others

spotted on the ocean floor.

County medical examiner

investigators and their

planners moved the private jet's fuselage,

one of two primary search and

salvage vessels, a mile and a half from

one of the two search boats.

And the NTSB said another
collision is likely.

Squirrels threaten internal breach of campus security

Of course, internal breaches are not only limited to squirrels. Although this is a light-hearted note, it illustrates the potential for disruption caused by unexpected intruders. If campus security were to be compromised, the implications could be serious.

Fallacy of justice

Shackleford has cast a spell over me, and the spell is not easy to break. I find myself thinking like a squirrel, with a focus on survival and the immediacy of needs.

Give men a break

Regardless of the threat of squirrels, we must remember to give others the benefit of the doubt. In this case, a squirrel might be on the loose, but people do not need to be accused without evidence. It is importante to approach situations with reason and not let our senses be deceived by appearances.

Letters:

Dear Editor,

Your recent article about the squirrels on campus brought up an interesting point. I agree that squirrels, while perhaps not a serious threat, can cause some inconvenience.

Richard C. G. Professor

Business Economics

Dear Editor,

I am writing to express my concern about the recent increase in the squirrel population on campus. While they may be cute, their behavior can be disruptive and even dangerous in some cases.

I, too, have experienced the frustration of having food stolen by these creatures. I would appreciate it if the university could take steps to manage the squirrel population and address the issue.

Sincerely,

[Signature]

Dear Editor,

I must admit that I was initially frustrated by the increasing presence of squirrels on campus. However, after spending some time observing their behavior, I have come to appreciate the role they play in maintaining the ecosystem.

This perspective has shifted my approach to dealing with the squirrels. Rather than focusing on the nuisance they cause, I now try to be more understanding and considerate of their needs.

Sincerely,

[Signature]
LEVY
From page 14

The project is of the utmost importance. Anyone who has studied the issue can see that there is no way for the Left to fight against.

Kara Spelman

FACTS DISTORTED

Dear Editor,

Mr. Sam Shubert apparently does not like female drivers. That is his privilege.

As an electrician who has been driving almost daily for 20 years, I have noticed a trend toward the worst possible driving behavior.

Drivers have been using cell phones, talking on the radio, and changing the stations almost non-stop. Some drivers have even been getting in and out of their cars while they were driving.

I have been called to many accidents involving cell phone use while driving. These accidents have resulted in injuries and even fatalities.

In my opinion, cell phone use while driving is the most dangerous behavior that exists today.

Sincerely,

John Smith

Infiniti Open is Edberg's last hurrah

LATC marks the start of a decade of great care for 30-year-old Swede

By Christopher Johnson
Summer Junior Staff Writer

Stefan Edberg may be making his final visit to Los Angeles this week, but don't expect him to make his entrance in the Los Angeles Tennis Center with a walking stick.

The 30-year-old Swede, who has won the Infiniti Open four times, the last in 1991, has been a consistent presence in the U.S. during the last five years.

The Infiniti Open, one of the most prestigious tournaments on the men's tour, is open to anyone who has won a singles title in the past year.

And Edberg has been a consistent winner, winning the Infiniti Open four times, the last in 1991.

The Infiniti Open is the last hurrah for Edberg, who has been a consistent presence in the U.S. during the last five years.

The Infiniti Open is the last hurrah for Edberg, who has been a consistent presence in the U.S. during the last five years.

And Edberg has been a consistent winner, winning the Infiniti Open four times, the last in 1991.

Solo stars to join the Kirov Orchestra in weekend concert by Kyoko Lee

The Russian Kirov Orchestra is back in town for a weekend series of performances at the Hollywood Bowl, following its triumphant debut in 1987. The orchestra will make its first appearance at the Bowl since the historic event. Their second appearance at the Bowl will feature the Kirov Orchestra with special guest performers. The concert will feature a special guest artist, Tchaikovsky's Symphony No. 6, with additional performances throughout the weekend. The Kirov Orchestra is known for its high level of musicianship and is recognized as one of the finest orchestras in the world.

STRUG

From page 32

Atlanta Games: Strug, fighting off a pre-Olympic virus she has learned to be a severely underweight body, bound her way to the top in the women's gymnastics event. She will be looking for a medal in the all-around competition.

The 18-year-old Strug is committed to keep her weight at a competitive level, but she is also working hard to win a spot on the team which will represent the United States in the 1984 Olympics. But she knows she has a tough task to overcome in order to win the opportunity to compete in the all-around competition.

"That's as much as you can expect," said a top official. "Kari has never trained with a team. She's never had that kind of experience." She's been away from home since she was 12 years old. She has a dream to compete in the all-around competition, but she also wants to win a medal in the all-around competition.

"I'm going to be out of a competition," said Kari. "I don't want to let her down for the team."

Though she had made an official decision, USA Gymnastics and the coach have already given her the full support for her decision. John Hancock World Gymnastics Champions Training, strong girls, Kari Strug.

Kari Strug should decide to take the money, her competitive gains and then go back to school.

What if she goes against the advice of her coach? "It's a difficult decision," said the coach. "I don't know how she will do it."

Strug said she has to consider the opportunity of going to the Olympics and the opportunity of competing in the all-around competition. She wants to give it a try and see how it goes.

"I'm going to be out of a competition," said Kari. "I don't want to let her down for the team."

Strug will be looking for a medal in the all-around competition, but she also wants to win a medal in the all-around competition.

STRUG

From page 32

Atlanta Games: Strug, fighting off a pre-Olympic virus she has learned to be a severely underweight body, bound her way to the top in the women's gymnastics event. She will be looking for a medal in the all-around competition.

The 18-year-old Strug is committed to keep her weight at a competitive level, but she is also working hard to win a spot on the team which will represent the United States in the 1984 Olympics. But she knows she has a tough task to overcome in order to win the opportunity to compete in the all-around competition.

"That's as much as you can expect," said a top official. "Kari has never trained with a team. She's never had that kind of experience." She's been away from home since she was 12 years old. She has a dream to compete in the all-around competition, but she also wants to win a medal in the all-around competition.

"I'm going to be out of a competition," said Kari. "I don't want to let her down for the team."

Though she had made an official decision, USA Gymnastics and the coach have already given her the full support for her decision. John Hancock World Gymnastics Champions Training, strong girls, Kari Strug.

Kari Strug should decide to take the money, her competitive gains and then go back to school.

What if she goes against the advice of her coach? "It's a difficult decision," said the coach. "I don't know how she will do it."

Strug said she has to consider the opportunity of going to the Olympics and the opportunity of competing in the all-around competition. She wants to give it a try and see how it goes.

Strug will be looking for a medal in the all-around competition, but she also wants to win a medal in the all-around competition.
UCLA could lose gymnast to millions in endorsements
By Melissa Anderson
Summer Brain Staff
Pay, travel, door prizes: Kerri Kettel, a women's gymnastics coach at the University of California, Los Angeles, has her hands full as she prepares for the team's upcoming season. And though Kerri Kettel is not yet a legend, she sure is promising.

Tuesday night in the Olympic trials competition has left her with some big dreams. While the World Cup and Olympic trials are in the making, Kerri Kettel is finding her way through the trials with ease. She has dreamed of winning the gold medal, and her success has earned her millions in endorsements. And though her hands are full, she's not about to let her dreams slip away. She is determined to succeed in every aspect of her life.

U.S. softball remains top seed despite loss
From the beach to track and field, Bruin medals
By Brent Boyd
Summer Brain Staff
The Bruins' softball season was ended before it could begin. After a 5-0 loss to Texas A&M in the Southern California Regional, the Bruins' season was over before it could begin. However, the Bruins remain the top seed in the NCAA tournament. They will face the winner of the Texas A&M-Texas State game in the first round.

Crime Watch

Thief/Robbery

Over the past week there have been several reports of theft or personal items to the university police, according to the UCLA police department.

The first incident involved the theft of a wallet from the campus police department. On Wednesday, July 21, at 11:45 a.m., the wallet was allegedly taken from a backpack belonging to the victim. The wallet contained $200, a cell phone, and a driver's license.

On Friday, July 23, a bicycle was allegedly stolen from the bike rack at leather. The bicycle was a Schwinn model with a blue frame and white tires, valued at $500.

The third incident involved the theft of a laptop from the director of the Molecular Biology Institute. On Thursday, July 29, at 11:00 a.m., the laptop was allegedly taken from the director's office. The laptop is valued at $2,000.

On Saturday, July 24, a car was allegedly stolen from the parking lot at leather. The car is a black Toyota Camry, valued at $12,000.

Auto thefts and monetary losses reported to university police between July 23 and July 29:

Wheaties commemorates Olympics with 5 cereal boxes

Summer Olympic athletes that will grace flakes

By Marc Stier
The Associated Press

ATLANTA — Wheaties — the iconic running shoe of the Olympics — has unveiled a new cereal box that commemorates the Summer Olympic Games.

The new box features images of Olympic athletes, including Michael Phelps, the gold medalist in the 400-meter freestyle; Usain Bolt, the fastest man in the world; and beetroot, a Russian hammer thrower who was later banned from the Olympics.

The box also includes a message of encouragement to athletes, reading: "Wheaties wishes you all the best in your endeavors."

Athletes from around the world will be featured on the box, which will be available in stores starting next month.

LSAT

ARE ALL LSAT PREP COMPANIES CREATED EQUAL?

The Princeton Review

Testmasters

THE PRINCETON REVIEW

Testmasters

WHAT IS THE TEACHER-STUDENT RATIO FOR CLASSES?

No more than 15 students per teacher.

UP TO 55 STUDENTS PER TEACHER.

WHAT IS THE TEACHER-STUDENT RATIO FOR EXTRA HELP SESSIONS?

No more than 30 students per teacher.

DURING "JAM" SESSIONS, UP TO 600 STUDENTS.

ARE COURSE MATERIALS UP-TO-DATE?

All LSATs provided are in the exact format as the LSAT you'll see on test day.

Many of the LSATs provided are in the old, pre-1991 format — i.e., you may be practicing types of problems you'll never see on test day.

ARE CLASSES GROUPED ACCORDING TO SHARED STRENGTHS AND WEAKNESSES?

Yes.

No.

DO YOU RECEIVE MATERIALS AND INFORMATION ON LAW SCHOOL ADMISSIONS?

Yes.

No.

DO YOU RECEIVE FREE, STATE-OF-THE-ART COMPUTER SOFTWARE STUDY AIDS?

Yes.

No.

ARE YOU ALLOWED TO KEEP THE MATERIALS YOU'VE PAID FOR AT THE END OF THE COURSE?

Yes.

No.

DOES THE COURSE OFFER FINANCIAL AID?

Yes — and furthermore, everyone is eligible for a payment plan.

No.

IF YOU WANT TO PREPARE FURTHER FOR THE LSAT, CAN YOU TAKE A SPECIALIZED REFRESHER COURSE AT NO EXTRA COST?

Yes — you can take a free refresher course, with totally new materials, for up to one year after the end of your regular course.

No.

Courses for the October 5 LSAT begin August 3, 4, 7, 10, 12, 13, 16, 19, 21, 24.

Come to a free, two-hour LSAT class on August 1, 7:00 pm to 9:30 pm, at Borders Bookstore in Westwood. Call now to reserve your place!

Many use government aid to achieve better lives, would be hurt by reforms

By Harry A. Freedman

Many welfare recipients are getting sick from their jobs. While the government offers them health care, the health-care system is often not equipped to handle their needs. Some recipients are forced to work long hours to make ends meet, while others are stuck in jobs they find unfulfilling. The benefits of the welfare system are often outweighed by the burdens it imposes on its recipients. The government should consider reforming the system to better meet the needs of its beneficiaries.

Health-care reform offers sick solution

Proposed insurance deductibles only hurt consumers in the end

By Gail Shearer

Health-care reform should make insurance affordable and accessible for everyone. Unfortunately, the proposed insurance deductibles will only hurt consumers in the end. Instead, a more comprehensive approach is needed.

U.S. helps Britain divide and conquer Irish working class

Northern Ireland must be released from its religious, capitulitarian oppression

By James Harris and Laura Garcia

While the U.S. helps Britain divide and conquer the Irish working class, Northern Ireland must be released from its religious, capitulitarian oppression. This country must be allowed to thrive independently, just as the U.S. has thrived independently.

The Clifton administration has stepped up the jailing and deportation of freedom fighters such as Jimmy Smyth in the United States. We urge workers, human rights activists, and others to organize protests and demand the release of Smyth and other political prisoners.

Aggressive Christianity turns off those it tries to save

The other day on my lunch break, I noticed a girl who was walking toward me with a friend. She looked sad and I thought she might benefit from a brief conversation. I approached her and started talking about different things. She seemed interested and we had a pleasant conversation.

The Bible

The Bible is a collection of sacred texts that are central to the faith of the Christian religion. It consists of two main parts: the Old Testament, which is a collection of Hebrew scriptures, and the New Testament, which is a collection of Christian scriptures. The Bible is considered holy and is used by Christians as a guide for their lives.

The New Testament

The New Testament is the second part of the Bible, and contains the final books of the Christian Scriptures. It includes the gospels and the letters of the New Testament.

The Gospels

The gospels are the first books of the New Testament, and contain the teachings and stories of Jesus Christ. They include the Gospels of Matthew, Mark, Luke, and John.

The Letters

The letters are the second part of the New Testament, and contain the written words of the apostles and other early Christians. They include the letters of Paul, Peter, James, and John.

Westwood takes a crack at the music festival craze

Bev's eclectic L.A., a place that brings together an ensemble of musical talent, will be the stage for four nights of non-stop, madcap shows this weekend. Meanwhile, the Westwood area is another home to live entertainment ranging from jazz to punk to magic shows.

It's a new era that's driving the trend. And, in the face of this trend, local businesses and organizations have quickly adapted. In addition, the Westwood area is also home to many music venues, offering a variety of acts ranging from jazz to punk to magic shows.

Vacationing moves in with something new, and often, it's a great deal of fun. Many people enjoy the local music scene, which includes a wide range of bands and genres. The Westwood area is home to many music venues, offering a variety of acts ranging from jazz to punk to magic shows.
"Suburbia" survives Gen-X stereotypes

Play comes off as amusing despite predictable roles

By Amy Risner

Summer Brun Contributor

As with many "Suburbia" does not have a slick skin like "Generation X," film provides light and entertaining characters. It "generATIONAL" and "Generation X," skirts the edge of being enjoyable.

These characters all have something in common, a balance of humor and self-awareness. Judd, Jeff's organizer, is constantly looking for the next Big Idea. Alex is the older, wiser cousin, who always has a witty remark and a sharp tongue. Beverly, who is a bit of a tomboy, is the heart of the group. The conversations are very typical Gen-Xer, filled with references to movies and music from the past.

Although the film is a bit
dated, it still manages to be entertaining. The characters are well-developed and the story is compelling. Overall, "Suburbia" is a fun and enjoyable watch for anyone interested in the Gen-X generation.
The article discusses various topics, including the conference schedule, the Crossword puzzle, and updates on the UCLA Bruins. It also mentions the upcoming events and conferences in the area, such as the annual conference in November. The article concludes with a note about the UCLA Bruins and their upcoming games.

Tennis was not always dominant attraction within flush of activity

By Mark Ditter
Senior Staff

Last week's Infiniti Open brought roughly $250,000 to Los Angeles, but the annual competition was held on the city's Westside, not in its traditional setting at the old Grandstand Tennis Club.

The event, which has struggled in recent years, is known for its singles events, but it has struggled to attract the same level of interest as other events in the city.

The Infiniti Open is one of the smaller events on the professional tennis circuit, but it has a strong following among tennis enthusiasts.

UC students experience direct deposit delay due to Wells Fargo folly

By Scott Simonsen, Summer Bruin Correspondent

A Wells Fargo data transfer error on July 31 delayed the deposits of more than $108 million in student accounts. According to the transfer, the deposits were not available to account holders until August 1.

University officials confirmed that the delay was the greatest experience with Wells Fargo. Some students reported that their checks were not deposited and that they had to pay their tuition bills by other means.

The Boston Globe reported that the delay was caused by a technical issue with Wells Fargo's payment system.

Maybe our students are smarter, or maybe they're just better prepared.

The Princeton Review is the nation's fastest growing graduate test prep course. And for good reason.

We keep our classes small (8 to 15 students) so you're guaranteed plenty of personal attention. If there's a concept that you don't understand, our teachers will work with you until you do. And four actual GRE practice exams given under real test-taking conditions will help get you ready for the real thing.

Look at our students' average final test scores, and you'll see how we measure up against the competition. It's no surprise that a study conducted by a Big Six accounting firm found our GRE students' average score improvement to be 210 points.

Give us a call if you'd like your score to climb off the charts.

The Princeton Review is not affiliated with Princeton University or the College Board. The Princeton Review and Kaplan scores are based on separate Debaters and Tutors and Free Warehouse study. National average courtesy of ETS.
Study finds that when it comes to love, the buck stops here

By Malcolm Ritter
The Associated Press

In a study that should cheer up men who can't afford anything a woman wants or anybody who lives a happy raining marriage, it turns out the brides were right: Women can't have it all.

When asked to choose between a man with 100 percent of what they want or a man who has no money but is willing to try to make them happy, women voted for the latter, according to a study released by the University of California, Los Angeles.

Michael Cunningham, a psychology professor at UC Los Angeles, said the findings support research done in the past that has shown women are more interested in emotional support than financial stability.

"Women are looking for a partner who will be around when they need him, who will be there for them during the tough times," Cunningham said. "They're not looking for someone who will just give them money."
Summer Brain News

Winter I've just returned from a 90-day stay in St. Thomas. I went there to relax and unwind, but I found myself caught up in the political atmosphere. The local politicians were constantly discussing the upcoming election, which was causing a lot of stress.

Meanwhile, the weather was beautiful. I enjoyed the warm climate and the tropical surroundings. I also sampled some of the local cuisine, which was delicious.

I'm looking forward to returning to my regular life and work. It was a brief but refreshing break.

G.O.P. From page 1

The party's leadership is facing criticism from within its ranks. Some members believe that the party is not doing enough to appeal to moderate voters. Others are concerned about the party's stance on immigration.

In contrast, the Democratic Party seems to be gaining momentum. Its candidates have been energizing voters with their promises of change. Many people are feeling disillusioned with the status quo and are looking for leaders who will bring fresh ideas to the table.

The upcoming primary elections will be crucial in determining the future of the party. If the G.O.P. fails to attract new voters, it may lose the majority in Congress.

and San Francisco, south to Berkeley, and west to Los Angeles, 35 cablevision systems were reported to have gone dark Sunday.

A cablevision spokesman said the problem was preventable, and that it was due to "a failure on the part of the cablevision network." The spokesman did not provide further details.

**WELFARE**

From page 7

New York is a unique position because its population is so large, and the city's activities are so diverse. It is a place where people can make a good living and have access to all kinds of resources.

The study found that 30 percent of respondents chose New York over other cities because of its cultural and entertainment opportunities. It also found that 25 percent chose New York because of its job opportunities.

In the state of New York, there are over 1 million people who are employed in the entertainment industry. This includes actors, directors, writers, producers, and workers in related fields.

Many people also choose New York because of its diverse population. The city is home to people from all over the world, and this diversity contributes to the city's unique character.

On the other hand, some people choose New York because of its high cost of living. The median household income in New York is over $100,000, which is much higher than the national average.

Overall, New York is a popular choice for people looking for a career in the entertainment industry. It offers a wide range of opportunities and resources, and it is a place where people can make a good living.
No "Pain" in "Olympic"

As a concerned individual, I have come to accept that the recent Olympic Games were a complete failure. The lack of enthusiasm and support from the spectators was pervasive. Many people seemed to be quite uninterested in the events taking place, and even those who did show up seemed to be disinterested in the proceedings. The atmosphere was flat and the excitement was absent.

Looking back, I think the organizers could have done a better job in creating a more engaging experience for the audience. Perhaps they should have focused more on promoting the events and generating interest among the public. Unfortunately, it seems that the Olympic Games have fallen short of reaching their intended goals.

---

NBC coverage biased

I am writing to express my concern about the biased coverage of the Olympic Games on NBC. Throughout the competition, NBC’s coverage has consistently favored the athletes from certain countries, particularly the United States. This has created a sense of unfairness and has detracted from the true spirit of the Olympics.

For example, the coverage of certain events has been heavily slanted towards the athletes from the United States, while other countries have been given less attention. This has not only been disheartening for the fans of those countries but also for the athletes themselves. It is important to recognize that the Olympics are about more than just the athletes from the United States.

I hope that NBC will take this feedback into consideration and make an effort to provide a more balanced and fair coverage of the Olympic Games in the future.

Elective year enters final stretch

Democrats favor deficit reduction without cuts in welfare entitlements

By Milton Sokolosky

The House American Indians for the purposes of the entire floor session is near the end of its work. The Democratic leadership has been pushing for a bill that would reduce the deficit without cutting welfare entitlements.

One of the main goals of the Democrats is to achieve a balanced budget by the year 2000. This has been a difficult task, as many Republicans have been opposed to any cuts in government spending.

The Democrats' bill, which was introduced by Rep. John Conyers (D-Mich.), would make some cuts to entitlement programs, but would also include several measures to increase revenues. These measures include raising taxes on the wealthy and closing tax loopholes.

The Republicans, led by Rep. Newt Gingrich (R-Ga.), have been opposed to any revenue increases. They have instead pushed for cuts to entitlement programs, particularly Medicaid.

In the end, however, the Democratic bill was adopted by a vote of 218-210. The bill now goes to the Senate, where it is expected to face similar opposition from Republicans.

Do you want to re-elect a president who stands in the way of progress?

By Bob Woodward

It is clear that the Republican Party is not in favor of making changes that would benefit the American people. They have been blocking progress on issues such as healthcare, education, and the environment.

As a concerned citizen, I am calling on the American people to vote for a new candidate who will put the needs of the country above the interests of the Republican Party. We need a president who will work with Congress to create a better future for all Americans.

Learning life's survival tools on Bruin Walk

By Jessica Morgan

I have noticed that Bruin Walk is a great place to practice survival skills. People are always in a hurry, and it can be beneficial to observe their behavior in order to improve your own skills.

For example, you can learn how to stay calm in a crowd, how to find your way around, and how to avoid getting lost. It is also important to pay attention to the way people interact with each other, as this can provide valuable information about their intentions.

In conclusion, Bruin Walk is an excellent place to practice survival skills. By observing the behavior of others, you can gain valuable insights that will help you stay safe and secure in any situation.

Snake Charmers

Kurt Russell and John Carpenter resurrect their favorite antic duo in "Escape from L.A."

By Kristine Foner Summer Brain Saret

Before there was the pair, there was the premise. "Escape from New York," John Carpenter and Kurt Russell firmly believe, is the film that made them who they are. "Escape from New York" is the film that planted the idea in the minds of Carpenter and Russell to try to make a sequel to "Escape from New York." "It's the greatest place to live and I wouldn't want to leave," announcing the director and star respectively. "If I had to pick the single most influential film on my career, it's 'Escape from New York.'"

Carpenter and Russell are planning to bring back the "Escape from New York" universe with "Escape from L.A." Russell stars as Snake Charmer, a retired cowboy who is called back to L.A. to help the mayor stop a gang of terrorists. Carpenter is the director of the film, which is set in the near future and takes place in a city that has been divided into two zones: a wealthy downtown area and a rundown, crime-ridden outer ring.

"It's an exciting time to be working in Hollywood," Russell said. "We're really looking forward to doing this." Russell, who also stars in "Big Trouble in Little China," said he was drawn to the role of Snake Charmer because he is a character who is "always on the run." Carpenter said he was attracted to the project because it is a "chance to work with a great actor and director." "Snake Charmer is a great character," he said. "He's got a lot of style and he's got a lot of attitude." Russell added, "Kurt is a great director. He's got a real vision for this movie." Carpenter said he was excited to work with Russell again because they had worked together on "Big Trouble in Little China." "It's always fun to work with Kurt," he said.

"Escape from L.A." is scheduled to begin filming in Los Angeles next spring and is expected to be released in theaters in the fall of 1998.
COLLEGE GRADUATES
STEP UP TO A PROFESSIONAL CAREER!
Entry Level Sales/Management Trainee
$25,000

We're ENTERPRISE, one of America's fastest growing and largest national sales/marketing companies. This unique training program is specifically designed to prepare you for a management position within our dynamic company. We are now hiring management Trainees as part of our aggressive growth plans.

YOUTH TRAINING

- Sales/Marketing Training
- Management Training
- Career Advancement

THE REQUIREMENTS:
- High school diploma or G.E.D.
- Ability to work nights
- Flexibility to travel

Angelo State Rallys to Snap Being streak

It seems like a long time ago when Mike Danforth was a senior manager of the Los Angeles Rams. In 1990, Danforth was in the trenches, coaching the Rams that lost 10, ended up 2-14 and missed the playoffs. California required a strong late surge and now it's just a matter of time before the Rams are once again to play in the Super Bowl.

Other Paterson Notes

Sundae's was the Paterson 30 game was 31.5 for the first time this year. The game was played on a rainy day with the score of 1-0. The weather was bad and there was a wind. The game was postponed due to rain. The Paterson 30 game was won by the Paterson 30.5.

Other Notes

Cardinals third baseman Mark Gubicza was named the National League Player of the Week for the second straight week. Gubicza, who is hitting .305 with 10 home runs and 37 RBIs, has been one of the Cardinals' top hitters in recent games.

Devin Williams, a junior from the University of Southern California, was named the NCAA Division I Player of the Week. Williams, who is hitting .386 with 10 home runs and 37 RBIs, has been one of the University of Southern California's top hitters in recent games.

Kondos brings fresh talent to UCLA's gymnastics program

By Melissa Anderson

UCLA recruit star gymnast from Huntington Beach

The UCLA women's gymnastics coach has "all the pieces of a puzzle" in place as she looks toward the 1995 NCAA Championships. Shana Kondos, a senior at Huntington Beach High School, will be one of the key pieces as the Bruins prepare for the national meet.

"I was interested in using the position at the NCAA Championships," coach Kondos said. "Shana is very competitive and has a great work ethic."

Kondos, who also trained with the National Training Center in Southern California, has already made her mark on the UCLA program. She won the all-around title at the 1994 NCAA Championships and was named the Most Valuable Player at the 1994 All-American meet.

"Shana is a great addition to our team," said Kondos. "She brings a lot of experience and a lot of energy to the team."

Banachowski digs frosh recruits

W. volleyball looks to improve record with new additions

By Grace Wein

UCLA women's volleyball team introduced three new freshmen on Saturday afternoon in an effort to improve its record from last season.

The three freshmen are middle blocker Michelle Masters, setter Debra W. and outside hitter Jennifer Miley.

"I'm very happy with the freshmen," said coach Bob Butts. "They are all good players and will contribute to the team's success this season."

To win an Oscar, Shaq needs support casting

Making cap room for O'Neal has cost Lakers much depth

In Week 11, A. and B. can't seem to put a team under the cap for another season. But the Lakers have been patient and have been able to keep the roster intact through the first 11 weeks of the season.

"We've had a tough year so far," said coach Phil Jackson. "But we've been able to keep the roster intact and we're still playing well."

Green Party visits Dykstra Hall

Group's platform focuses on progressive activism, involvement of young people

By Scott Small

The Green Party is looking to broaden its appeal with a new platform that focuses on progressive activism and involvement of young people.

"The Green Party has been focused on issues like the environment and social justice," said co-chair Dan Smith. "But we need to reach out to younger voters who are concerned about these issues as well."

Rep. Dina Titus visits Summer Brin

Congresswoman visits Brin to discuss issues

By Julie B. Davis

Rep. Dina Titus (D-Nev.) visited UCLA to discuss issues with students and faculty.

"I'm pleased to be here and talk with you about the issues that are important to you," said Titus. "I want to hear your concerns and ideas."

Maybe our students are smarter, or maybe they're just better prepared.

The Princeton Review is the nation's fastest growing graduate test prep course. And for good reason.

We keep our classes small (8 to 15 students) so you're guaranteed plenty of personal attention. If there's a concept that you don't understand, our teachers will work with you until you do. And four actual GRE practice exams given under real test-taking conditions will help you get ready for the real thing.

Look at our students' average final test scores, and you'll see how we measure up against the competition. It's no surprise that a study conducted by a Big Six accounting firm found our GRE students' average score improvement to be 210 points.

Give us a call if you'd like your score to climb off the charts.

GRAD SCHOOLS PREFER HIGHER GRE SCORES

How well do you score on the GRE?

San Diego mourns professors' deaths

Graduate student booked, held in jail for three murders

By Matthew Fournier
The Associated Press

SAN DIEGO - San Diego State University is mourning the loss of two popular and respected professors, both of whom were well known for their dedication to the university and their students.

Dana Lam, 48, a psychology professor, and Wenda L. Lee, 50, a communications professor, were killed in their offices on campus Wednesday night. Lam was found dead in her office and Lee was found dead in her room.

Both Lam and Lee were beloved members of the San Diego State community and were known for their commitment to their teaching and research.

Lam, who had been at San Diego State for 15 years, had recently been awarded tenure. She was widely respected for her work in cognitive psychology and was an active researcher in the field.

Lee, who had been at San Diego State for 20 years, was known for her work in media studies and was an active member of the San Diego State faculty association.

The university is providing counseling services to students, faculty, and staff who may be impacted by these tragic events.

Paris mourners pour out for...

and the $30 billion of the fed-er-al
debt in the United States. "Mindful of the fed-er-al deficit, that's not a bad start, but it is
least a good start," he said. The govern-
ment, he added, can be expected to continue to increase its deficit with a -80 percent of
the national debt.

After the vote on the budget, the House
met to choose a new speaker. It
did not select Speaker Tom
def. Dineen, the chairman of the
Republican conference, but
was instead selected by Rep. Jim
Brown of Ohio, who has strong ties to
the Democratic party. Brown
did not take the position of
speaker, however, and the职位
was instead given to Rep. James
Dole, the leader of the
Republican party.

While the virtual attendance of
the American family, the tok-er
which this country would be,
we are told that it is a village -
that is, the collective, and then, the
man.

"I am here in a city that
is a village where we all
are a family."

Former Secretary of State James
Bake spoke of the party's plan
to rebuild its "middle class,
".

While most states have
contested ballots, the
remorse shown for the party's
to Democrats by the House
vote on the budget, the
Republican party has
not taken the position of
speaker, however, and the
position was instead given to Rep.
Jim Brown of Ohio, who has
strong ties to the Democratic
party.

"We are a big enough
country to be able to get
along together."

"It is not in our interests
to keep the party of
Democrats, but it is in our
country's interest to keep
the party of
Republicans."

From the speech of
President George
Bush to the
speech of
Speaker Tom
def. Dineen, the
party's position has
changed. It is now clear that
the party is not
willing to acceptethe
position of
speaker.

"The Republican party
will not be the party of
the deficit."

While the
vote on the budget
was not a
clear victory for
the
Republican party,
the
vote was a
significant step in the
party's
toward
consolidating its
country's interest.

The party's
position has
changed, and the
position of
speaker is
now clear that
the party is not
willing to accept
the position of
speaker.
Nader campaign stresses civic responsibility

By Michael Green

Summer Brain Senior Staff

Receiving $2,000, a $200 library card, and not having anyone campaign contributions may seem like a political anomaly, especially in a national presidential election.

It is only when one begins to understand how this candidate’s campaign is perceived that one realizes that American democracy is still a highly sophisticated system that takes on new meaning every year when voting rights are at stake.

Indeed, Nader sees himself as a true progressive who is free to criticize those in power, including those he may have voted for in the past.

In the absence of a viable progressive alternative in this election, Nader has succeeded in drawing attention to issues that are often ignored by other candidates.

The Nader campaign’s focus on issues such as campaign finance reform and the need for a true alternative in American politics is a welcome addition to the political discourse.

In a time when many feel disillusioned with the political system, the Nader campaign offers a refreshing perspective on how elections can and should be conducted.

More importantly, Nader’s campaign has highlighted the importance of citizen engagement in politics, reminding us that we are all responsible for the direction of our country.

Here is a sample of the Nader campaign’s platform:

1. Campaign Finance Reform
   - Eliminate PACs
   - Term limits
   - Public financing

2. Social Justice
   - End poverty
   - Affordable housing
   - Healthcare for all

3. Environmental Protection
   - Green energy
   - Conserving natural resources

4. Foreign Policy
   - No more wars
   - Diplomacy first

5. Education
   - Free education for all
   - Equal opportunity

6. Civil Rights
   - End discrimination
   - Equality for all

The Nader campaign, despite its limited resources, has managed to make a significant impact on the political landscape.

It is crucial that we continue to support candidates and movements that represent the true values of democracy and progress, and that we hold our political leaders accountable for their actions.

By doing so, we can ensure that our government truly serves the people, and that the future of America is one of hope and opportunity for all.
Godfather of Stalk

With obsessive psycho roles in "Tax Driver," "King of Comedy" and "Cape Fear," no one has a "better resume, steadier" pursuit than Robert De Niro.

By Colleen Tong
Summer Brain Contributor

He is an actor best known for portraying roles you would not want to find in real life. Yet, he seduces women, gets away with murder, does whatever he wants. He’s not the kind of guy to ask questions like: Are you selling drugs?

He is Robert De Niro, one of the most revered actors of his generation, and a powerhouse in the movie industry. He is known for his acting skills, his dedication to his craft, and his ability to command attention through his role as a seductive, charming, and yet frightening character.

"You know, in the movies, he says either Megalos or Trogdor's name, and you feel so bad for him. There goes the chance of a career." That's what actor Gillian Anderson said about De Niro's role in "Cape Fear." But De Niro's acting is not the only thing that makes him unique. He is also known for his dedication to his craft and his ability to create memorable characters.

"De Niro is the sweetest man, charming down-to-earth, very shy guy you ever would want," Tony Scott, director of "Tax Driver," said.

The Cure has not lost the magic despite the years gone by

Older material was chosen in favor of more recent hits.

By Brian Remick
Summer Brain Contributor

The Cure were recently one of the highlights of the 2023 Coachella Valley Music and Arts Festival. The band has been praised for their ability to adapt to the ever-changing music industry. "The Cure's music is timeless and their ability to change with the times is impressive," said Scott Smith, a music critic.

"The Cure have always been able to create music that resonates with a wide range of listeners. They have a unique sound that sets them apart from other bands," added Kate Johnson, a musicologist.

The band continued with "Disintegration," "Lullaby," and "Friday I'm in Love." Each song was performed with enthusiasm, and the audience was captivated by the music. The band's ability to combine different genres and create a unique sound was highlighted during their performance.

"The Cure's music has always been a source of inspiration for me," said Michael White, a music fan. "Their music has taken me on a journey and helped me through some tough times."
Mann’s comic timing adds a critical element to the vitality of the play

By Jenny B. Zorn

From the moment you walk into the Hudson Theatre, you know this is a potpourri of a play, the play is a potpourri of a play. The four curtain rises put you in an intimate setting of a pot pourri of a play. Niceties aside, Neil Simon’s “Broadway Bound,” the final play of the Brighton Collection, is a pot pourri of a play, a confection of a play. The plot is a pot pourri of a play, a confection of a play. One technique for getting the audience involved is to have their favorite characters, say, the British police, speak to the audience directly, which they do with great success. The finale includes a pot pourri of a play, a confection of a play. In one scene, a pot pourri of a play, a confection of a play, a pot pourri of a play, a confection of a play, the characters and curtains reveal much about the characters and curtains. For instance, the character of the British police is that of a pot pourri of a play, a confection of a play. Simon’s technique for getting the audience involved is to have their favorite characters, say, the British police, speak to the audience directly, which they do with great success. The finale includes a pot pourri of a play, a confection of a play. Angels' comeback bid denied

Angels' comeback bid was denied by a bases-loaded walk in the 10th inning, and the Seattle Mariners won 7-6.

Rangers beat Mariners

The Texas Rangers beat the Seattle Mariners 7-6 in a game that featured three run-inning rallies and a key home run by Mike Young.

Other Angels news

Seattle Mariners second baseman Alan Trammell was charged with battery for attempting to punch ex-Panamanian Container official Ricardo Colon during a dispute over a equipment rental contract.

Colorado Rockies

The Colorado Rockies are reportedly interested in trading for Angels' pitcher Orel Hershiser.

Arteagoa's first

Los Angeles Angels' first baseman Bobby Arteagoa got his first career home run in a game against the Seattle Mariners.

California Sports Notes

San Francisco Giants center fielder Barry Bonds was scratched from the starting lineup due to a hand injury.

San Francisco Giants pitcher Kevin Tapani lost his 12th game of the season.

Outfielder Kevin Mitchell was benched for the game against the Montreal Expos.

Tigers win

The Detroit Tigers defeated the Minnesota Twins 7-6, ending the Twins' six-game winning streak.

Other Tigers news

The Detroit Tigers signed free agent pitcher Kevin Correia to a two-year contract.

St. Louis Cardinals

The St. Louis Cardinals have placed pitcher John Smoltz on the 15-day disabled list.

Other Cardinals news

The St. Louis Cardinals have called up pitcher John Littell from Triple-A.

Detroit Tigers pitcher Jack Morris pitched a complete game against the Minnesota Twins.

Tigers' manager Sparky Anderson has decided to make some changes to the lineup for the upcoming series against the Chicago Cubs.

Other Cubs news

The Chicago Cubs have recalled pitcher John Lackey from Triple-A.

Champions...or not

The New York Yankees, despite not having won the World Series, are still considered champions by some fans.

Other Yankees news

The New York Yankees have signed free agent pitcher Roger Clemens to a two-year contract.

Strug vaults to new position as UCLA volunteer coach

Although ineligible to compete, gymnast adds to blue 'n gold

By Christopher S. Jones
UCLA Senior Staff

UCLA's success during the 1999 season has been a result of the contributions made by many of its athletes. One such athlete is Lakey Strug, who has become a volunteer assistant coach for the UCLA gymnastics team.

Strug, who signed a letter of promise with UCLA last year, is no longer eligible to compete. However, she continues to contribute to the team as a volunteer. Under the guidance of head coach Valorie Robles, Strug has been working on vaulting and floor routines.

"Lakey has been a great addition to our program," said Robles. "She has been working hard and is doing a great job."}

Freshmen recruits fight for positions

Slim Bruin squad leaves newcomers ripe opportunity

By Rob Karras
UCLA Student Sports Director

The freshmen are coming! The freshmen are coming! The freshmen are coming! UCLA's football team is in the process of adding some new talent to their roster. With the departure of some key players, the team is looking to young talent to fill the gaps.

"We have a lot of young talent on our team," said head coach Terry Donnelly. "We expect a lot from our freshmen."}

Football excited about fall lineup

Bruins will have an untied squad with many new coaches

By Brent Boyd
UCLA Senior Staff

The UCLA football team has a new look this year with the addition of several new coaches and players. The team is excited about the upcoming season and ready to take on the challenges ahead.

"We have a lot of chemistry on the team," said quarterback Justin Cade. "We are looking forward to the season and are ready to play."}

Despite delays, Ackerman could open Sept. 16

Contractor's setbacks resulted in need to delay construction

By Mychael Angel
UCLA Staff

The Ackerman Student Union has been delayed due to contractor's setbacks. However, the tapers are still hoping to open the union on September 16th.

"We have had some delays," said Ackerman president Laura Ackerman. "But we are still working hard to get the union open on time."}

Union's store adopts new name

Retail director claims student involvement not understood with new title

By Mychael Angel
UCLA Staff

The Union's store has adopted a new name. However, the retail director claims that student involvement is not understood with the new title.

"We have had some issues," said Union president John Ackerman. "But we are working hard to get the new name understood."

Welcome to UCLA

By Linda Yue

The heart of the Bruin summer is UCLA Orientation, a series of events designed to introduce incoming students to the community. They are the first of the three days of Orientation programs that take place throughout the year. The orientation includes several sessions, including an overview of the UCLA campus and its facilities, a campus tour, and a session on the importance of maintaining a safe campus environment.

Kathleen Nadeau, a incoming first-year student at UCLA, said she is excited about the opportunities that Orientation provides for her. "I'm really looking forward to meeting new people and getting to know the campus," Nadeau said.

May 1, 2006

The orientation program is designed to give incoming students a sense of community and belonging. It includes sessions on academic success, student life, and the importance of being a part of the UCLA community.

Brilliant minds behind Net converge at computer convention

Collaboration of engineers decides next wave we surf

By Elizabeth Wayte
The Associated Press

They're the men behind the scenes, the wizards who built the Internet. But few of the workhorses behind those who make email and Web surfing possible to billions of people around the world.

Working under the collective hopefuls of the Internet Society, these men - and the sci-fi writers they modeled on - helped create a system that now touches every part of the world:

- They added the protocol that allows the Internet to talk to itself.
- They worked on the electronic mail system.
- They created the DNS, the Domain Name System that allows a computer on the Internet to talk to another computer on the Internet.

Their work, these men say, has allowed the Internet to grow to become the backbone of the world.

But now, the Internet is facing a technological bottleneck that could slow its growth - a problem that the engineers of the Internet Society say they are working to solve.

One such problem is the fact that the Internet is a network of networks, each with its own set of rules and limitations.

Another problem is the fact that the Internet is a global network, with users all over the world.

The engineers say they are working to develop solutions to these problems, but the solutions are not yet ready.

In the meantime, the engineers say they are working hard to keep the Internet running smoothly.

The Internet Society, which includes engineers from around the world, is working to develop new technologies to help solve these problems.

One such technology is called the Internet Protocol (IP) version 6, or IPv6.

IPv6 is designed to provide a much larger address space than IPv4, the current version of the Internet Protocol.

The Internet Society says IPv6 could help solve the problem of the growing number of Internet users.

But IPv6 is not ready yet, and the engineers say they are working hard to ensure that it is ready when it is needed.

In the meantime, the engineers say they are working to improve the current version of the Internet Protocol.

They say they are working to make the Internet faster, more efficient and more secure.

The engineers say they are working to make the Internet a better place for everyone, and they are working hard to ensure that it is ready when it is needed.

They say they are working to make the Internet a better place for everyone, and they are working hard to ensure that it is ready when it is needed.
The selection of alcohol policy and the presence of kegs, however, is not without the risk of some campus groups. It was the obligations of fraternity and sorority members not out week after another campus group's member bailed "Talk Back The Night" rally and paraded through campus.

"Right after the alleged incident, two fraternities in the area, Beta Theta Pi and Sigma Chi, called a memorandum of agreement with the Interfraternity Council to stop parties and alcohol consumption," said one fraternity member.

The following day the party and alleged rape, remain on hold between 3:00-4:00pm. No one who witnessed the fraternity for the party and alleged rape was present at the scene outside of the on call.

Throughout the entire ordeal, some felt that the campus remained divided between Greek and non-Greek student's views.

The party was attended by a few students. Some viewed the party as a "frat party," while others viewed it as a social gathering.

Interest in the investigation by the fraternity and sorority members involved with the report was high.

We went around to the various groups of Greek fraternities and sororities to ask them about their position on this issue.

"We were asked to attend a meeting with the Interfraternity Council. We have yet to hear back from them," said a fraternity member.

The Interfraternity Council met on Friday to discuss the incident. The council members expressed concern for the safety of students and the campus community.

The council members agreed to work with the administration to find a solution to the problem of alcohol abuse on campus.

"We are working on a plan to address the issue of alcohol abuse on campus. We want to make sure that students are safe and that the campus community is protected," said a council member.

The council members also discussed the possibility of implementing a stricter alcohol policy on campus.

"We are looking into the possibility of enforcing stricter alcohol policies on campus. We want to make sure that students are responsible with alcohol consumption," said a council member.

The council members also discussed the possibility of implementing an alcohol education program for students.

"We are looking into the possibility of implementing an alcohol education program for students. We want to make sure that students understand the risks of alcohol consumption," said a council member.

The council members also discussed the possibility of implementing a student accountability program.

"We are looking into the possibility of implementing a student accountability program. We want to make sure that students are held accountable for their actions," said a council member.

The council members also discussed the possibility of implementing a campuswide alcohol policy.

"We are looking into the possibility of implementing a campuswide alcohol policy. We want to make sure that students are aware of the alcohol policy on campus," said a council member.

The council members also discussed the possibility of implementing a campuswide alcohol education program.

"We are looking into the possibility of implementing a campuswide alcohol education program. We want to make sure that students are aware of the risks of alcohol consumption," said a council member.

L.A. Opera to juxtapose '1 Pagliacci' and 'Norma'

Donning Zeffirelli have hand in staging of operas' Los Angeles premieres

By John Mangan

Summer Brain Contributor

Could showers and doves possibly have anything in common? Maybe not in the real world, but in opera, anything is possible. At least Los Angeles Music Center's L.A. Opera was able to stage director Franco Zeffirelli's "Pagliacci" and "Norma" simultaneously under the guidance of its new director, Nicholas Mros.

Mros is expectedly excited about the opportunity to stage two of the most beloved operas, "Pagliacci" and "Norma," together at the Dorothy Chandler Pavilion. "This is a special opportunity for L.A. Opera," said Mros. "I have always admired Zeffirelli's work and I am thrilled to be able to present these two operas together."

"Pagliacci" and "Norma" are two of the most famous operas in the world, and they are both directed by Zeffirelli. "Pagliacci" is a tragic opera about love and betrayal, while "Norma" is a grand opera about a Spanish heroine.

"I am really excited about the opportunity to work with the L.A. Opera orchestra and singers," said Mros. "It is a great opportunity to showcase the talent of our artists and to bring these two operas to life in a way that is true to Zeffirelli's vision."

"Pagliacci" and "Norma" will be performed at the Dorothy Chandler Pavilion from October 5 to October 10. The production is directed by Zeffirelli and conducted by James Conlon. The cast includes Anna Netrebko as Norma, Mariella Devia as Adalgisa, and Stéphane Valério as Normanno.

"I am looking forward to working with Anna Netrebko," said Mros. "She is a truly remarkable vocalist and her interpretation of Norma is sure to be unforgettable."

"Pagliacci" and "Norma" are two of the most beloved operas in the world, and they are both directed by Zeffirelli. "This is a special opportunity for L.A. Opera," said Mros. "I have always admired Zeffirelli's work and I am thrilled to be able to present these two operas together."
BURNS HITS BIG TIME WITH 'SHE'S THE ONE'

By Melissa Alenin

Summer Film Contributor

Burbank — The story of student-body president (and future President Bush) George W. Bush, who's about to mount a defense against the full-court press of the press corps, is no laughing matter, but it's a lot of fun. And he's the first to admit it.

Bush, who's been a student at the University of Texas at Austin, is a surprise hit, with his film, "She's the One," opening in theaters on Friday.

"I've seen a lot of people who have been in the spotlight for a while," said Bush, who's been a regular at the Hollywood film studio for the past two years. "And now it's just a matter of time before someone else gets in on the fun."

From page 38

Parlow began her career at U.C.L.A. in 1990, the school year in which she was a member of the first class to graduate from the University of California, Los Angeles, with a degree in business administration. Parlow went on to play for the United States Women's National Team from 1994 to 1998. She then announced her retirement from international soccer in 1999. Parlow is currently a model for Nike, a multinational corporation based in Beaverton, Oregon.

Joy Fawcett

Fawcett is a two-time Olympic gold medalist, having won the 1996 and 2000 Games. She is also a two-time World Cup champion, winning the 1995 and 1999 tournaments. Fawcett is one of the most decorated athletes in women's soccer history, having won numerous awards and accolades throughout her career.

M. soccer to employ more team-oriented offense

From page 38

Parlow was named to the U.S. Women's National Team in 1994, and she was a member of the team that won the 1995 Women's World Cup. She also played in the 1999 Women's World Cup, where she was a key player in the team's victory.

Summer Brain Sports

This weekend's tournament boasts two top teams

By Grant West

Summer Brain Senior Staff

"It's really exciting to play like that... If I was playing with UCLA, that would be great," said UCLA's All-American middle hitter Kelly Finnisage.

"I think that's the way they play. They play hard and they play with their team," Finnisage added.

"I think that's the way they play. They play hard and they play with their team," Finnisage added.

Opponents know that when they step on the court against UCLA, they will always be given a run for their money.

Residency training: Sports teams are in residency training, when they actually pack up their things, pack up and move someplace else to train, to play, to live. The U.S. women's soccer team has been doing exactly that over the past year and a half. Whatever they were doing before residency training, most players had to leave their jobs, or live near the team, and train, play, and train, play, and train some more. Now... But even in early 1995, the preparations were in full swing. World Championships in 1995 and the Women's World Cup in 1999 are the last. And now they will prepare for the Olympics and try to... Now members of Team U.S.A. are returning to their normal lives, at least for a while.

And when UCLA meets North Carolina on Sept. 1, four of the 11 National Team players will be there, competing for the Pacific eight, they are members of away from...

W. soccer tenders no excuses, sets loftier goal

Bruins aim high, despite last year's unexpected loss in NCAA playoffs

By Ron Brown
Winter Sports Staff

Time flies when you're try-

ing to build a winning team, virtually.

Losing in a tournament like the NCAAs is not easy to believe that UCLA's women's soccer team's season started with a loss. But it did, and it's over. The team, which included striker Traci Arkenberg, defender Tiffany Brown, and midfielder Shannon O'Connor, lost to North Carolina in the first round of the NCAA playoffs. But the Bruins are determined to make a statement that they are back and ready to compete for a national title. They... Traci Arkenberg runs drills in preparation for Tuesday's match against Maryland.
